# CloudForms For Your Business

Oren Oichman  
Senior consultant – RHCE / Matrix

# Industry Trend – Hybrid Cloud

Existing IT + Private Cloud + Public Cloud = “Hybrid Cloud”

**It's all happening at the same time!!!**

# Gartner – Bi-Modal IT

## IT Industrialization

Renovate the core of IT

- Cloud/Web-scale infrastructure
- Software-defined flexibility
- Diverse sourcing

Build bimodal capability

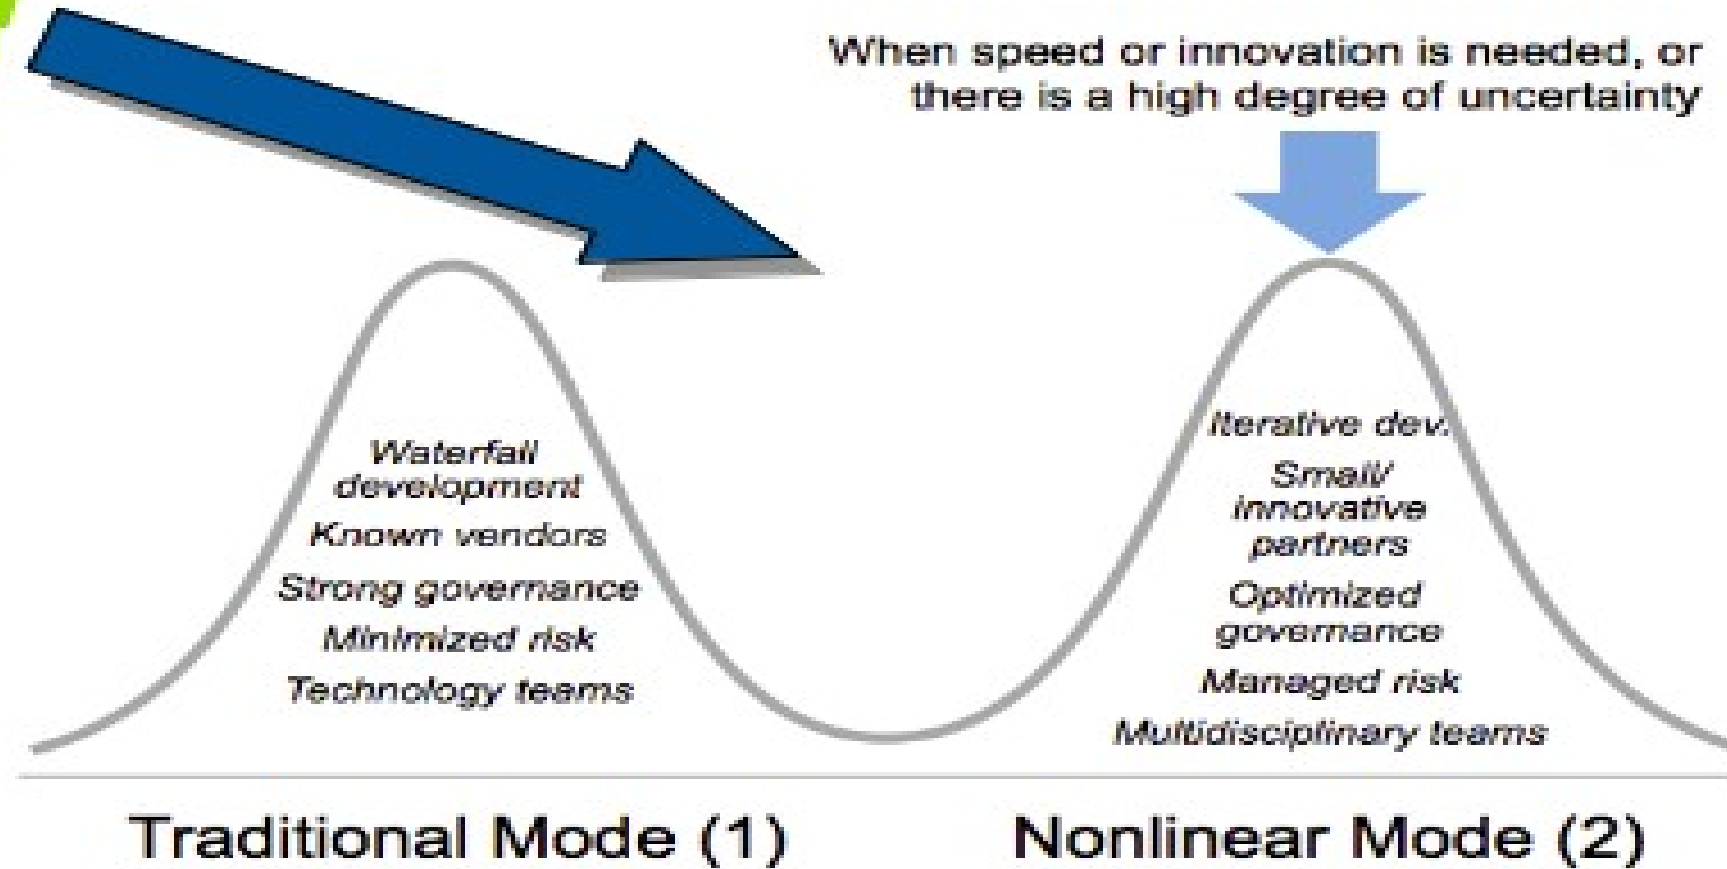

## Digitalization

- Dealing with uncertainty
- Exploratory, iterative style
- Multidisciplinary teams
- New risk/speed trade-offs

**“By 2017, 75% of IT organizations will have a bimodal capability.”**

Gartner

When speed or innovation is needed, or there is a high degree of uncertainty

# IT CHALLENGES

## FLEXIBILITY

- Scale-out on demand hampered by proprietary virtualization licensing
- Other solutions force single-vendor stack solutions, requiring migration and forklift
- Public cloud like future based on open source technology, enables economics of scale-out

## MANAGEMENT

- VM sprawl and management sprawl
- Multiple panes of glass with no central governance
- Demands for self service must balance with policy and security
- Orchestration of complex and repeatable tasks
- Discovery and monitoring of disparate systems

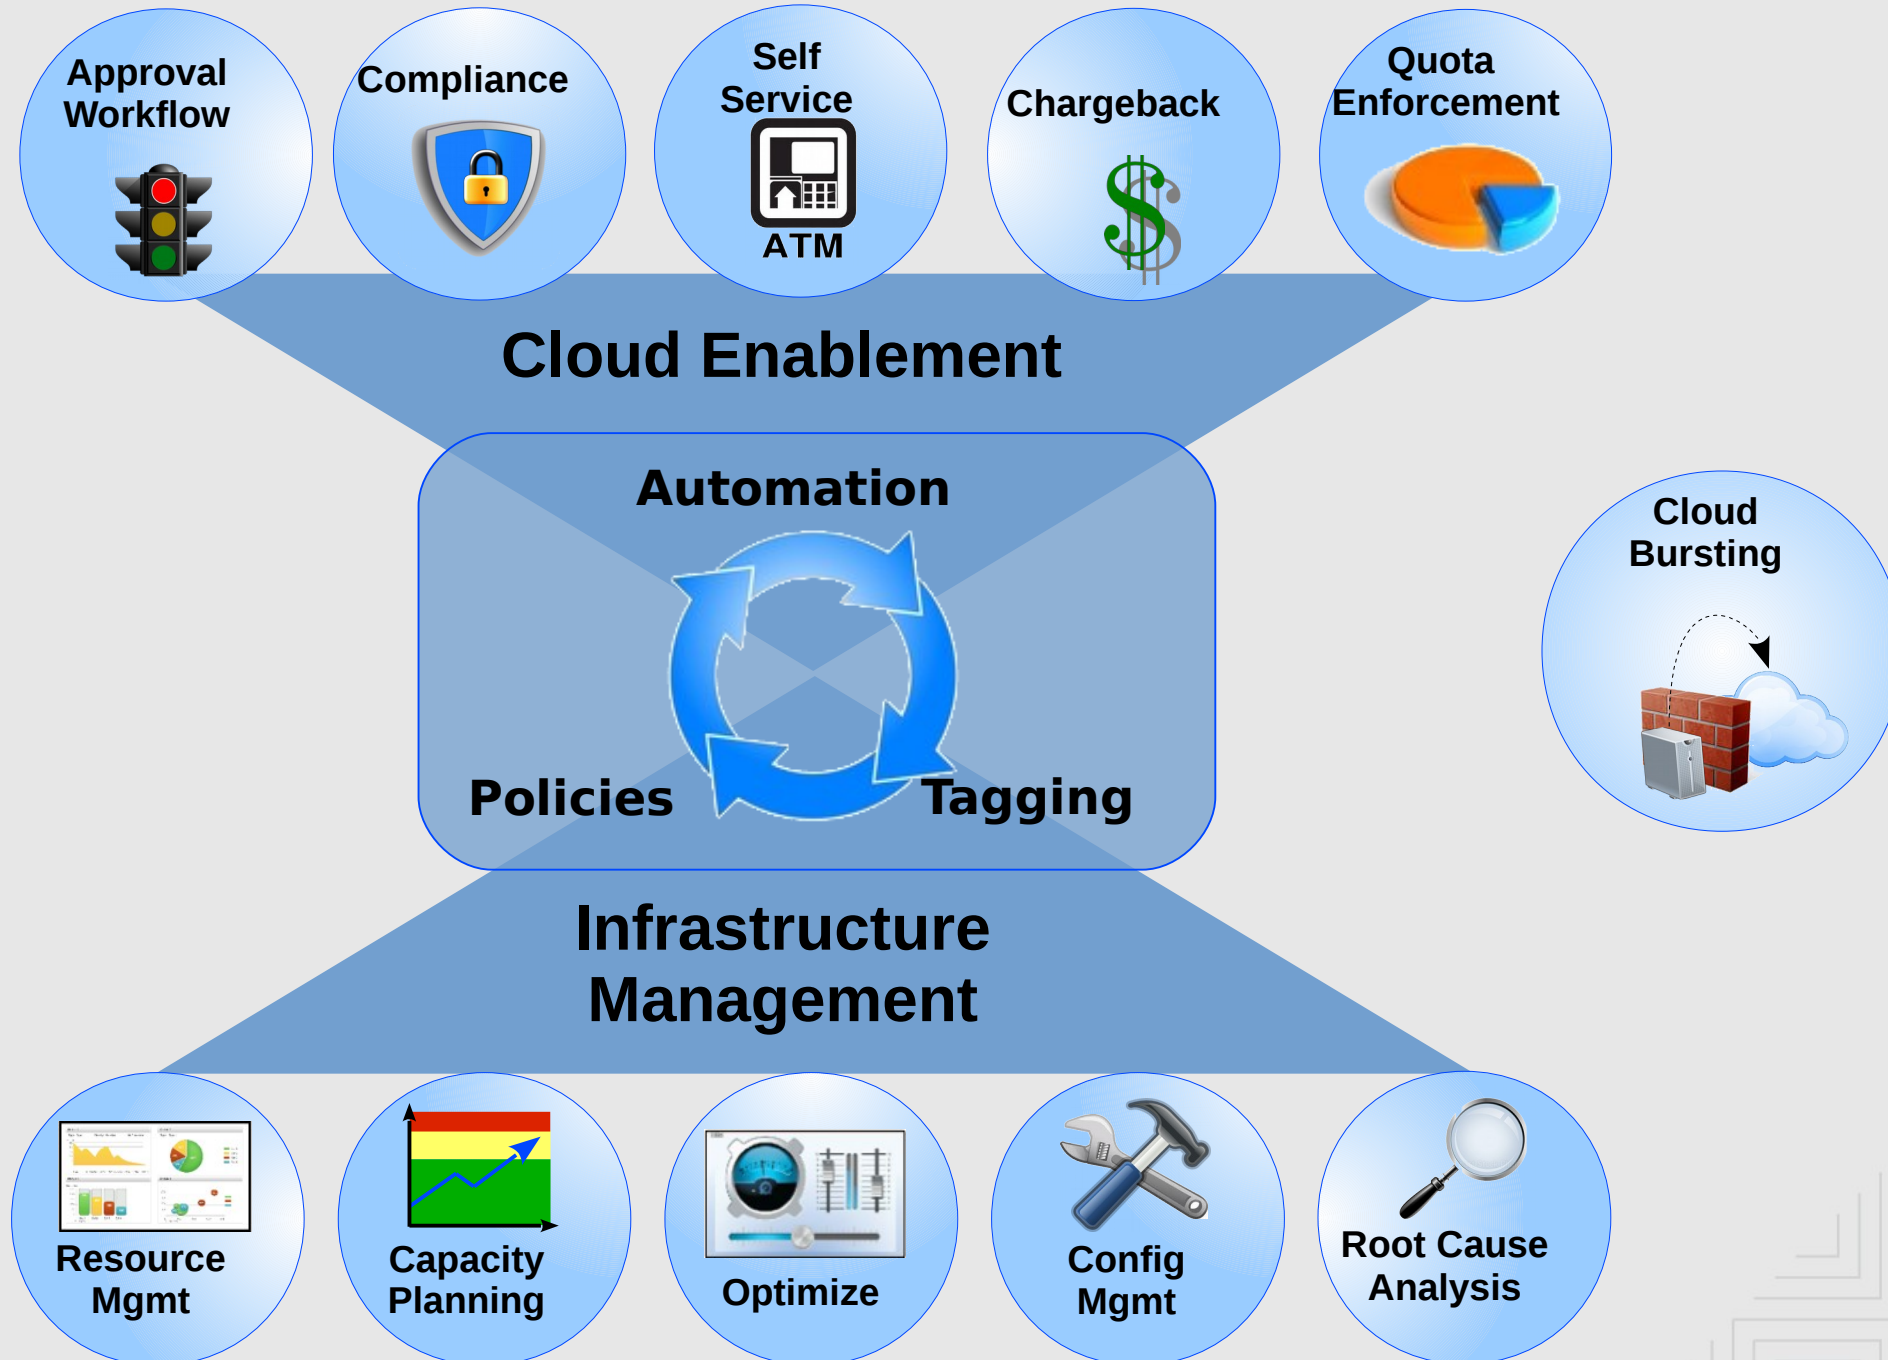

## WORKLOADS

- Legacy workloads require traditional datacenter virtualization
- New cloud enabled workloads need flexible scale-out, fault tolerant infrastructure
- Management tools must deal with both use cases
- Solutions must deal with a long term migration from one type to another

# RED HAT CLOUDFORMS

Cloud Enablement *Integrated with* Infrastructure Management

# CLOUDFORMS

## Built for Enterprise Scale Cloud Operations Management

**AGENT-FREE,  
VIRTUAL APPLIANCE  
ARCHITECTURE**

Rapid deployment, non-invasive  
(Industry Standard OVF)

**WEB-BASED  
OPERATIONS, ADMIN  
AND SELF-SERVICE**

Access anywhere from  
any browser

**ENTERPRISE  
DIRECTORY SUPPORT**

Leverage directory for  
authentication and role

**SUPPORTS  
MULTI-TENANCY**

Securely share  
infrastructure

**HORIZONTALLY  
SCALABLE**

Highly scalable,  
load balancing

**LOAD BALANCING,  
FAILOVER/BACK**

Provides reliability,  
high availability

**MANAGEMENT  
ACROSS MULTIPLE  
LOCATIONS**

Single pane of glass,  
unified management

**MANAGEMENT  
ACROSS VIRTUAL  
PLATFORMS &  
PUBLIC CLOUDS**

Single pane of glass,  
unified management

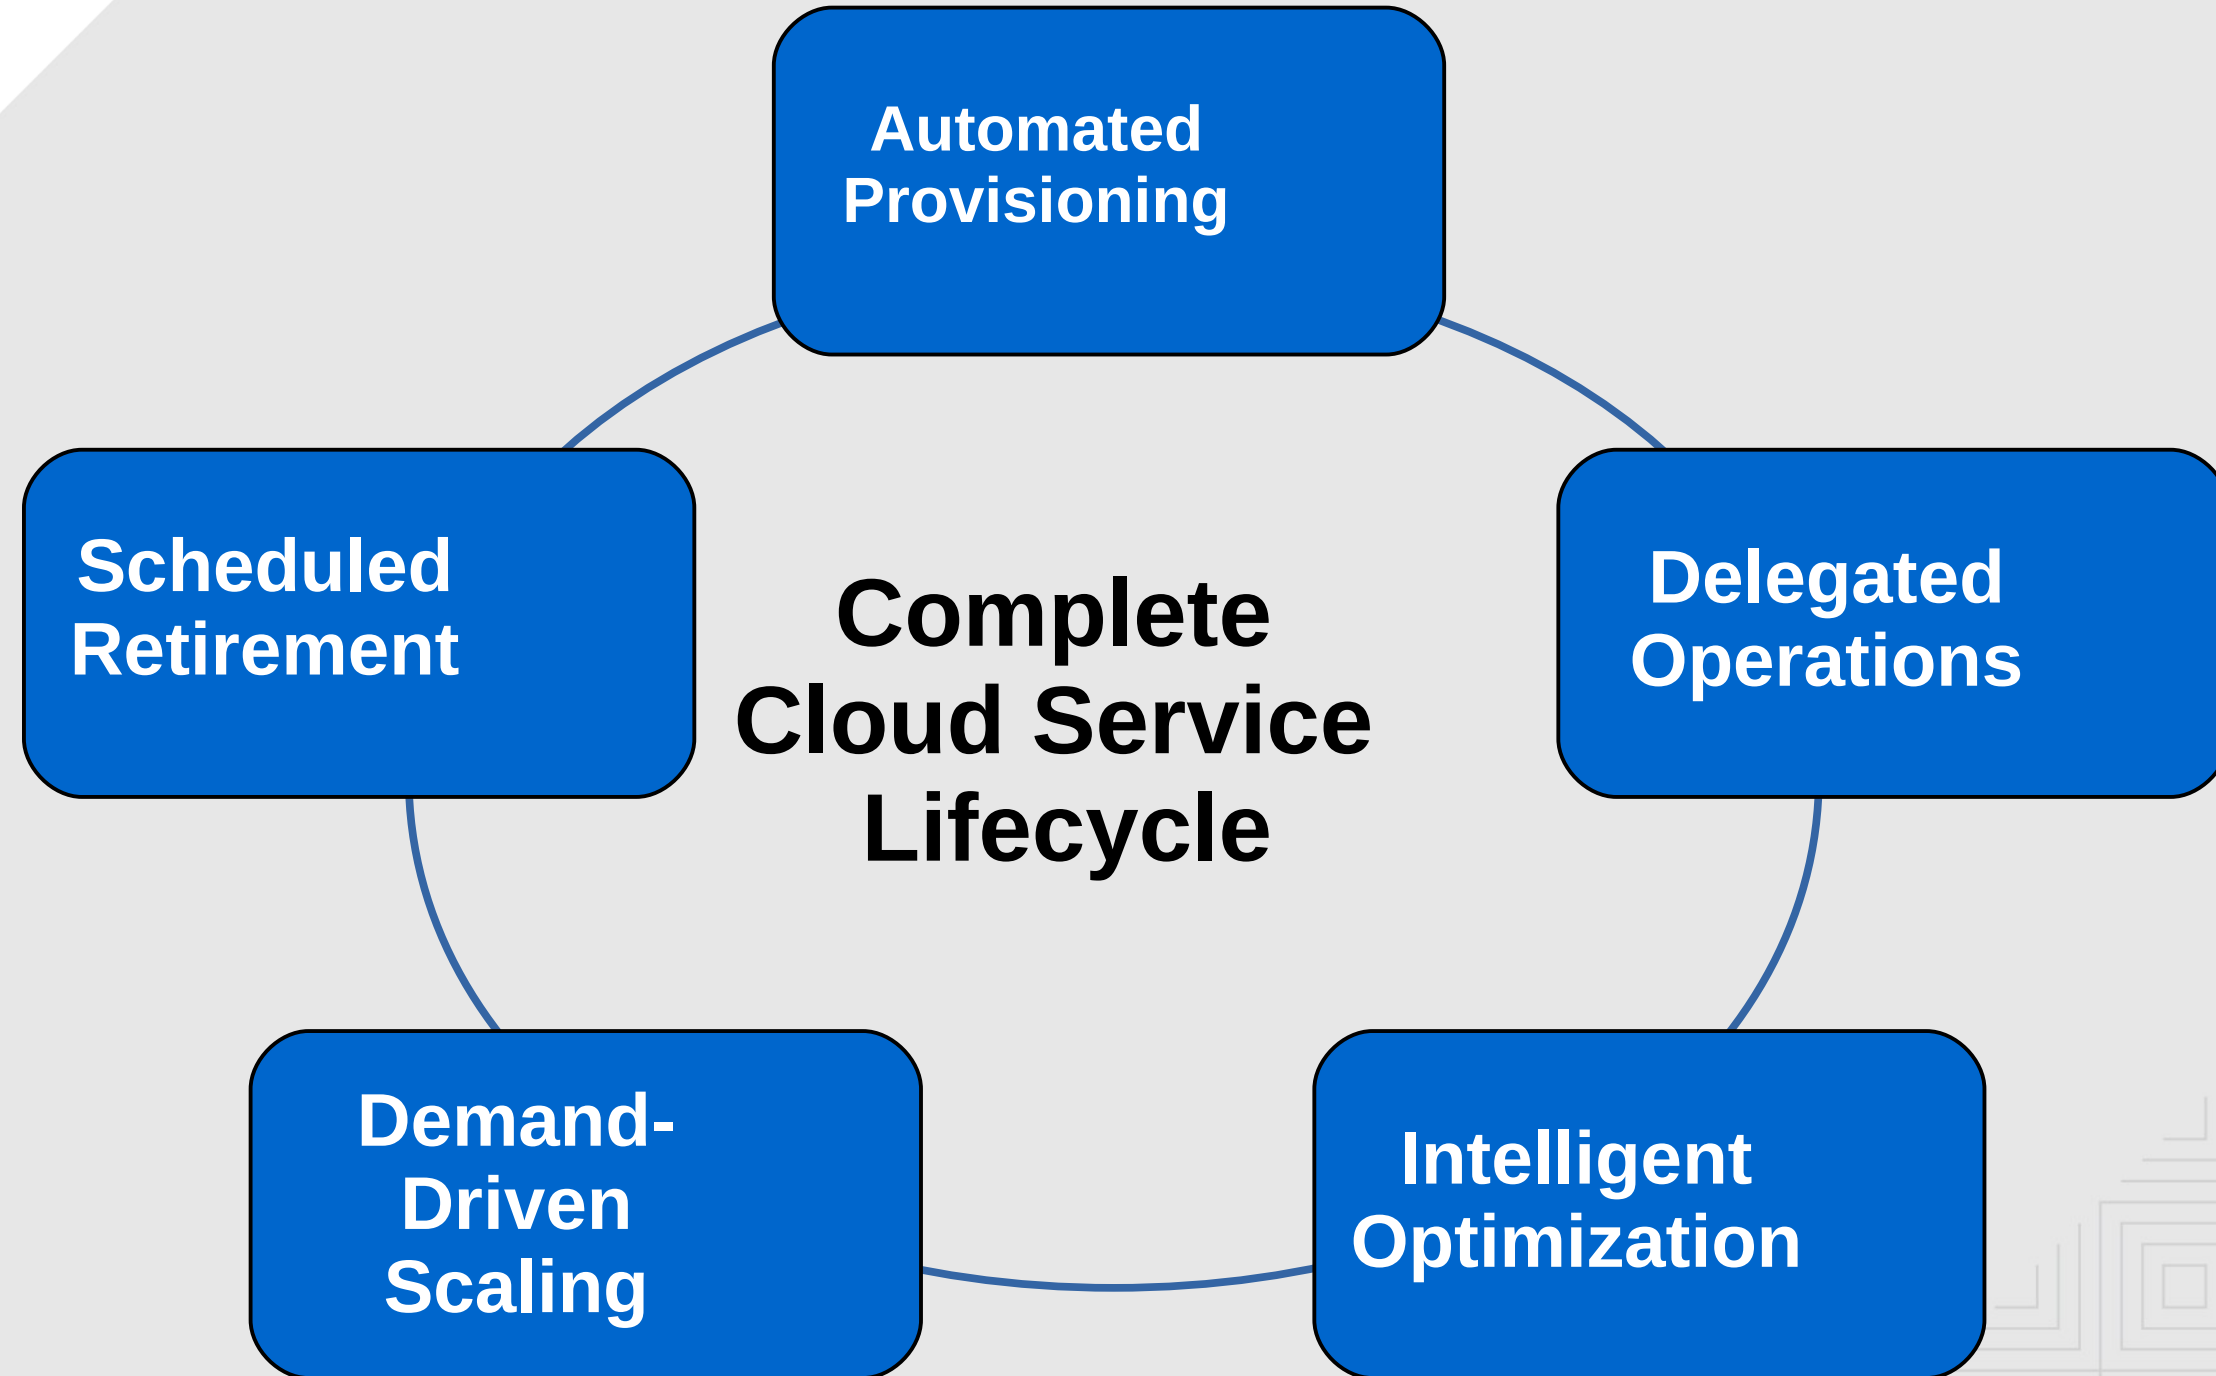

# CLouDFORMS

## Benefits

- **Lower Acquisition Cost**
  - Lowest cost of leading commercial vendors
- **Faster Time to Cloud**
  - Virtual Appliance, agent-free
- **Lower Implementation Costs**
  - Out-of-the-box reports, alerts, policies, integration, automation
- **Tool Reduction**
  - Integrated capabilities that eliminate need for many tools
- **Continuous Optimization**
  - Maximize resource efficiency
- **Increased Automation**
  - Highest operational efficiency
- **Open/Flexible**
  - Leverage low cost virtual platforms for your cloud

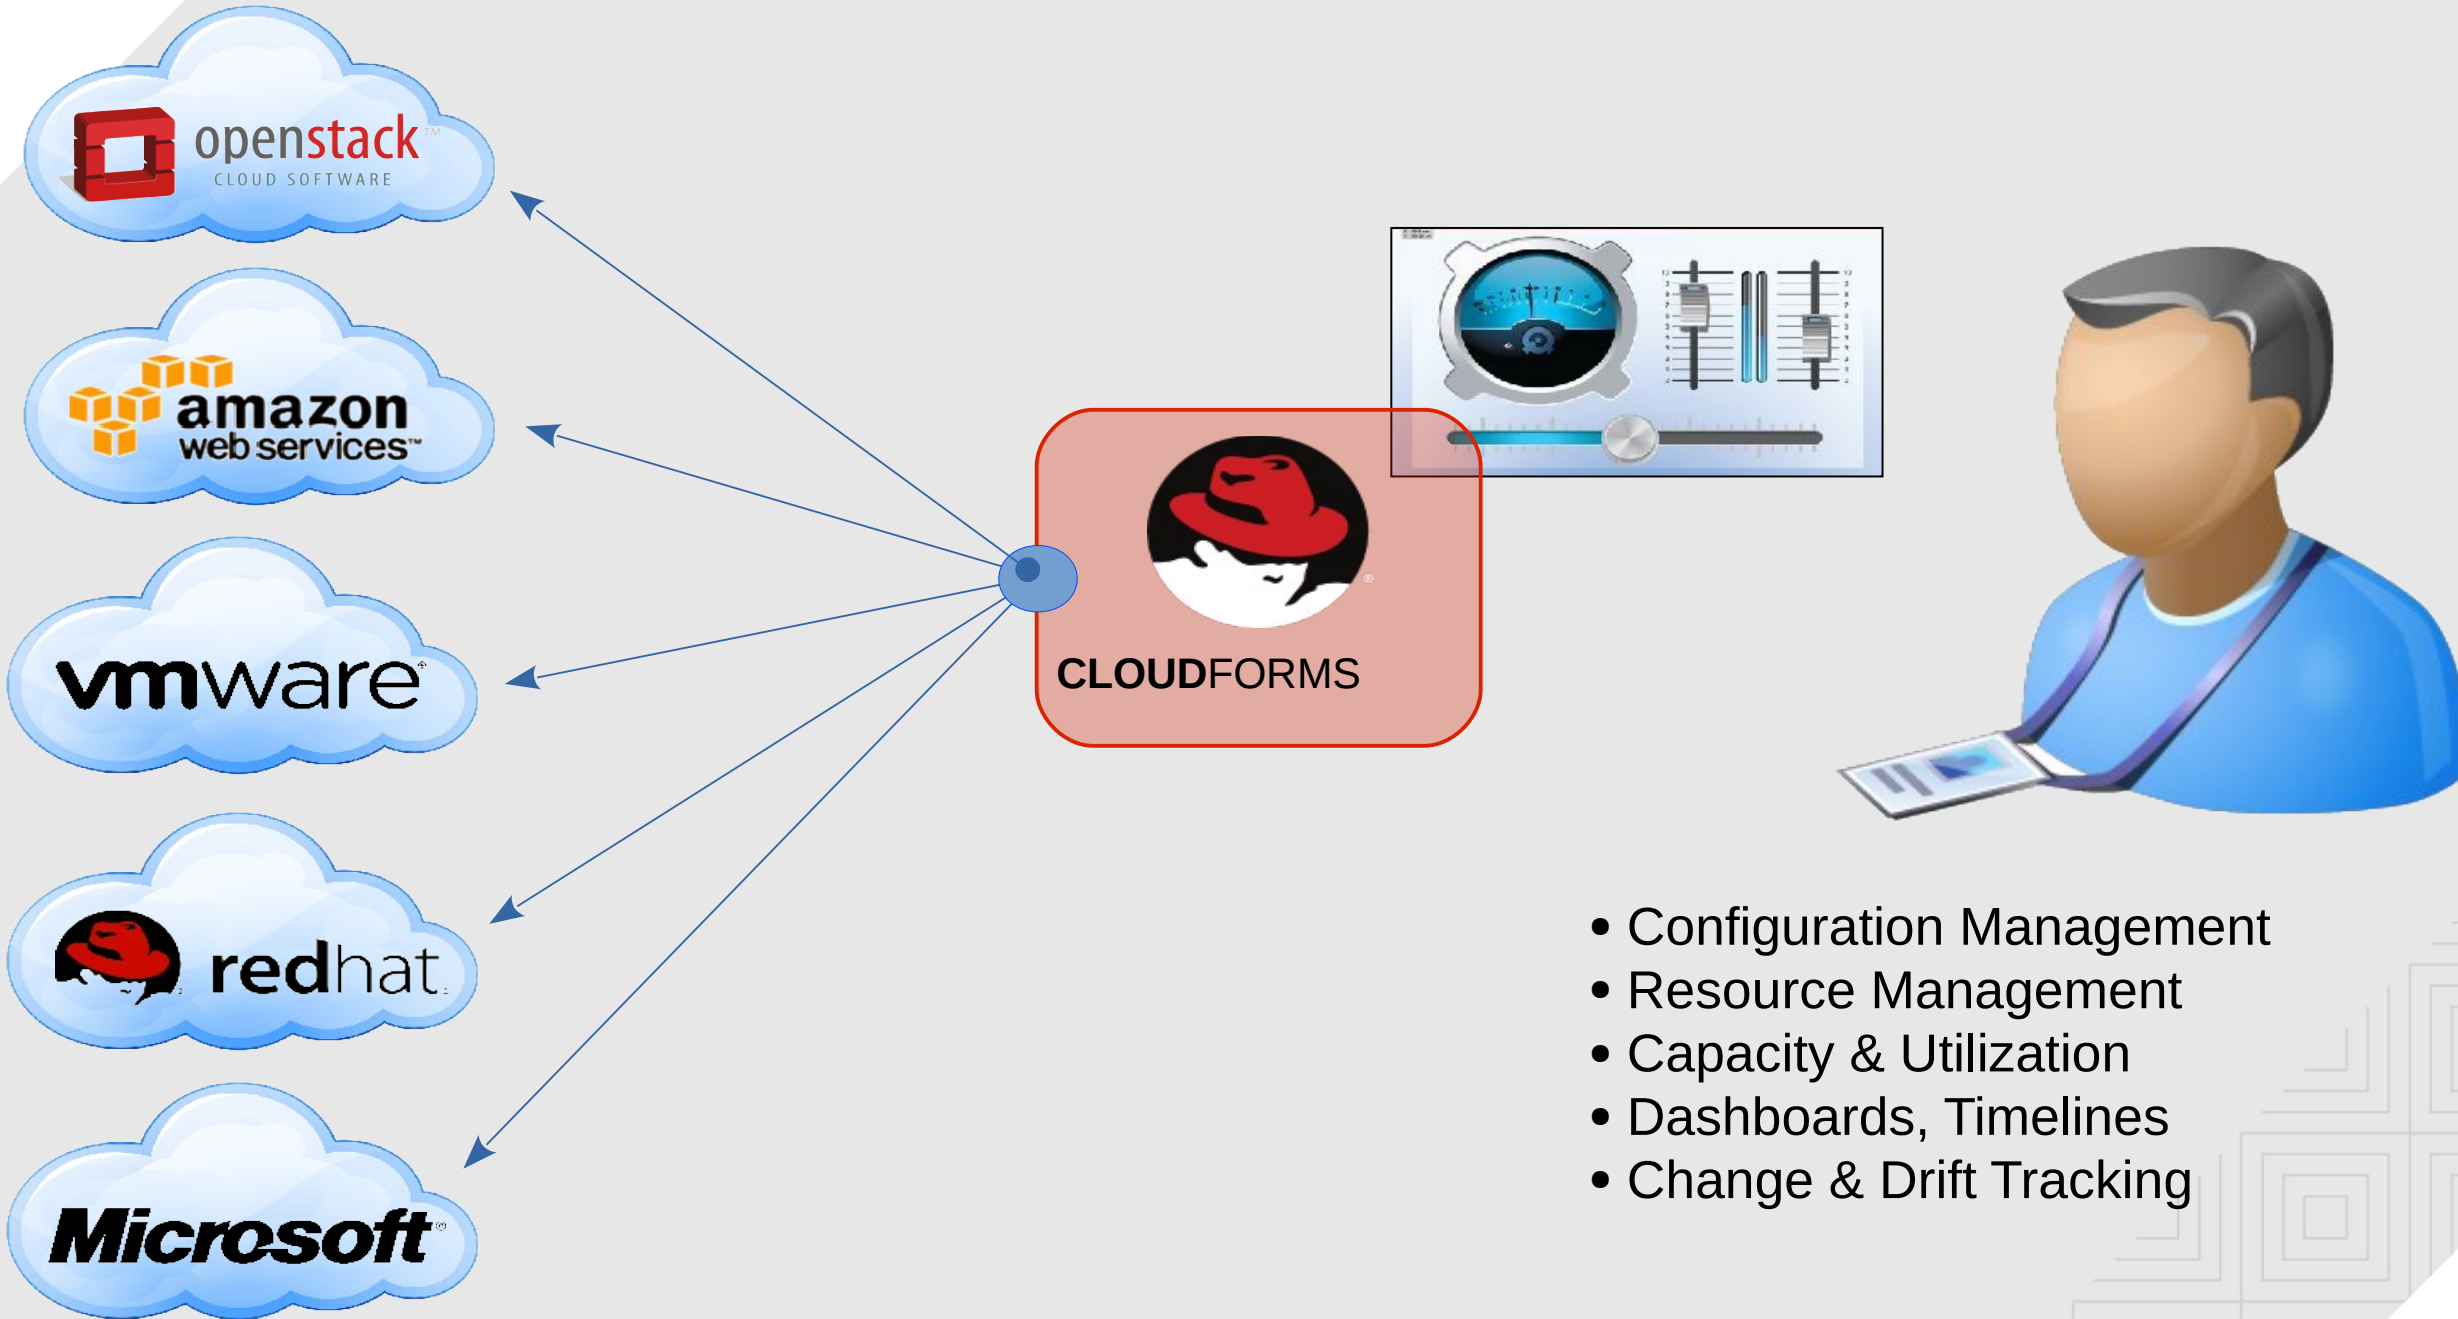

# CLOUDFORMS - Cloud Operations Management

# IT CLOUD MANAGEMENT

## Single Pane of Glass Operations

- Configuration Management
- Resource Management
- Capacity & Utilization
- Dashboards, Timelines
- Change & Drift Tracking

# IT CLOUD MANAGEMENT

## Integration

Enterprise Service Catalogs

Management & Reporting

Event Consoles

CMDB

ITPA/RBA

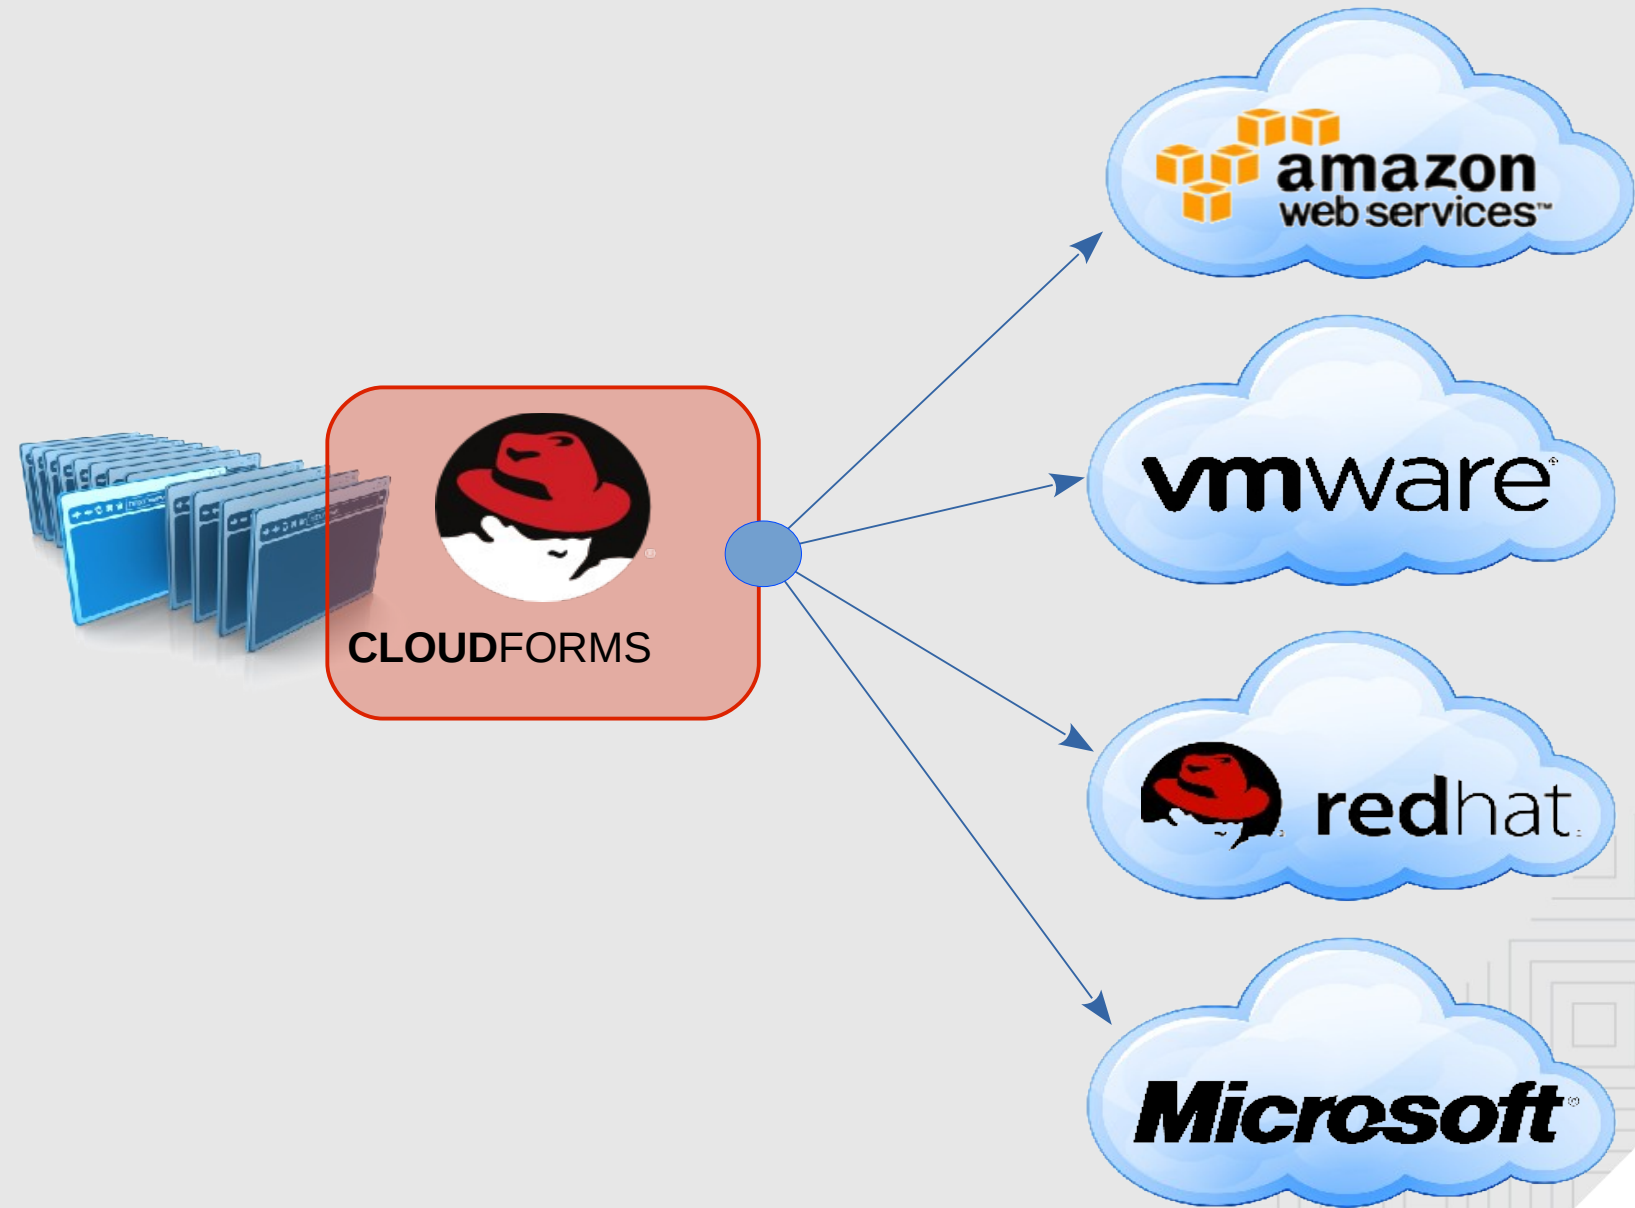

servicenow

# IT CLOUD MANAGEMENT

## Seamless Self-Service

- Role-based Delegation
- Self-Service Portals
- Service Catalogs
- Automated Provisioning
- Quotas & Chargeback

# IT CLOUD MANAGEMENT

## Executive Management

- Multi-Tenancy
- Financial Management
- Governance & Compliance, Security Policies
- Forecasting & Planning
- Health, Availability

# Containers are about micro-services...

## Expect 10X scale of VMs!

# And... expect them to run in VMs

(so we'll talk about managing through the layers)

# What is Atomic?

- RHEL Atomic is a variation of Red Hat Enterprise Linux 7
- Components
  - systemd
  - Kubernetes
  - Docker
  - SELinux
- JEOS for Containers
- OSTree vs. Yum / RPM
- Everything is a Container

RED HAT ATOMIC

Audience	Capability	RH Atomic Enterprise Platform	OpenShift Enterprise by RH	RH Cloud Suite for Applications
Operations	Container optimized host	✓	✓	✓
