SOFTWARE DEFINED INFRASTRUCTURE

Use Infrastructure as Code

- Repeatable, consistent deployment

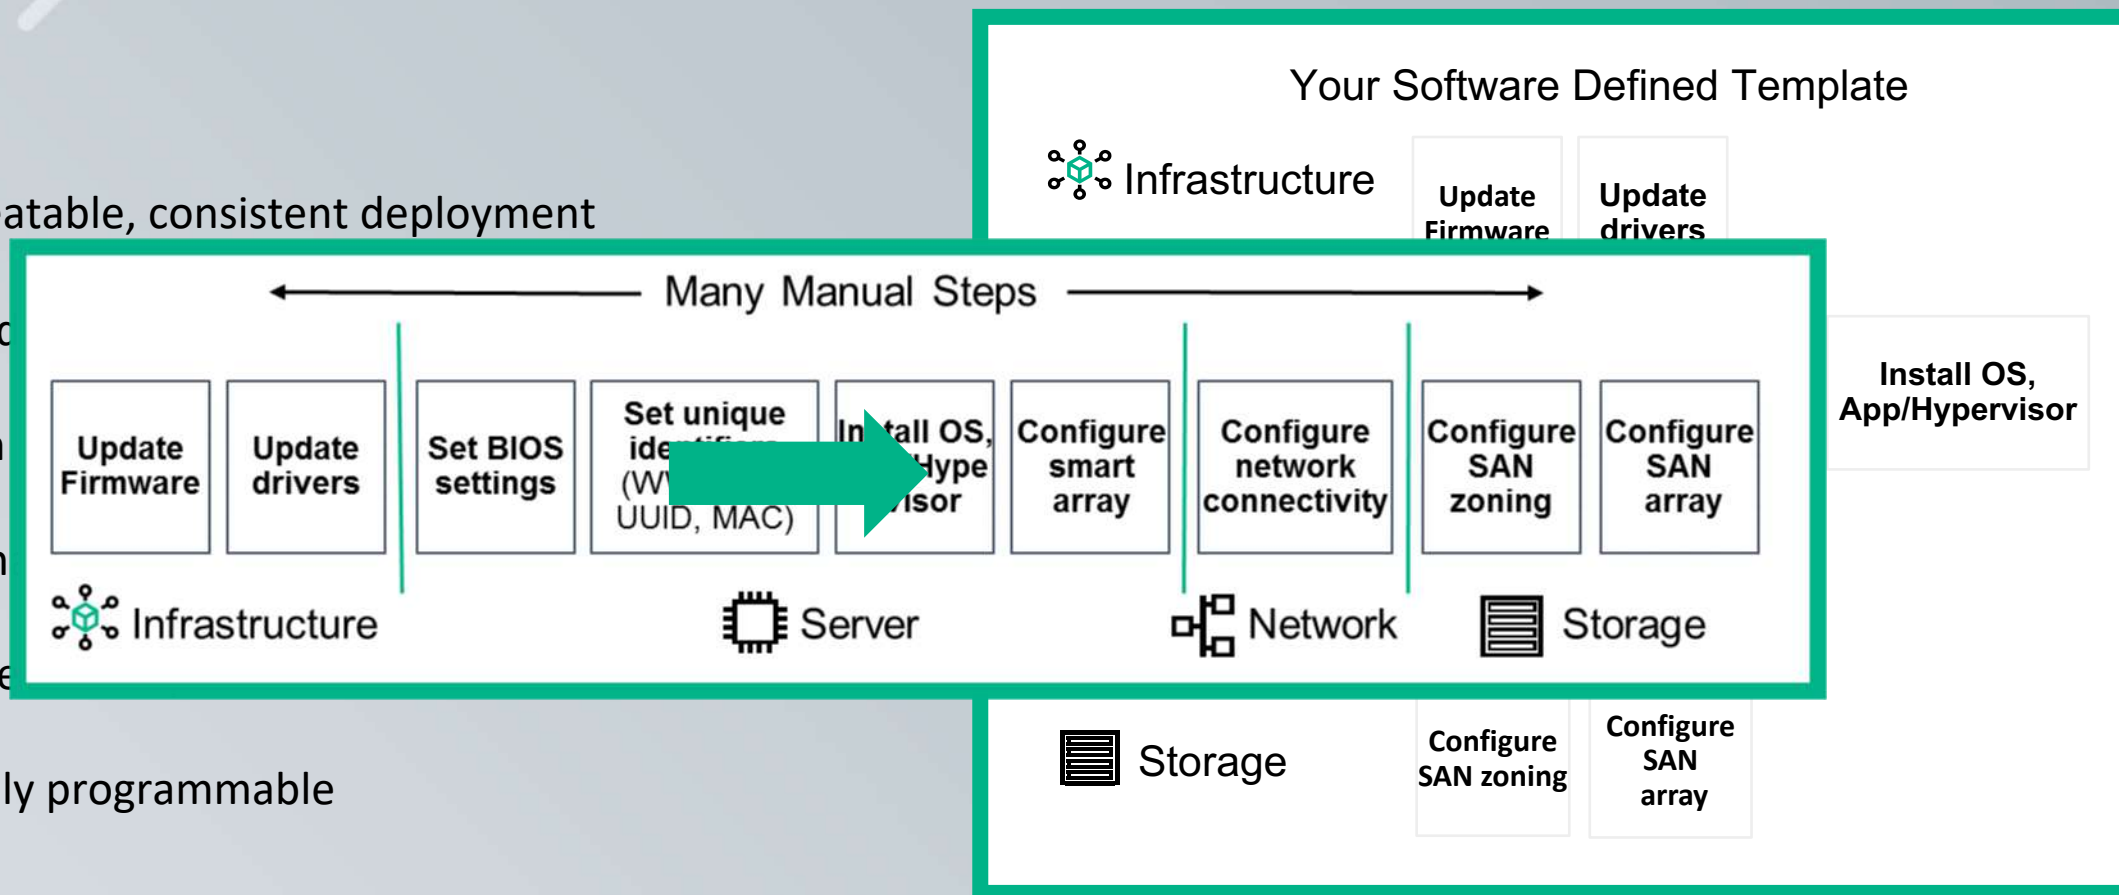

- Based on code

- From a template

- No manual steps

- No need for expertise

- Totally programmable

HPE COMPOSABLE INFRASTRUCTURE API ECOSYSTEM

HPE AND RED HAT SIMPLIFY CONTAINER ACCELERATION

Reference Architecture

Detailed Step By Step Guide

Ansible Playbooks

<https://github.com/HewlettPackard/image-streamer-reference-architectures/tree/master/RC-RHEL-OpenShift-Synergy>

YOOX-NET-A-PORTER SPEEDS SERVICE DELIVERY

Using software-defined infrastructure from HPE with ecosystem integrations

Reduced time
to stand up a
single server from

2 hours
to
15 minutes

Repurpose an
already deployed
server in just

30 minutes

Manual intervention
is reduced
from dozens to

Zero

“Thanks to software-defined infrastructure templates, all the operational activities are simplified, documented and maintained. The software-defined intelligence in HPE OneView and Synergy applies the templates autonomously once triggered”

Yamandu’ Correa - Global E-Commerce Hybrid Infrastructure & Warehouse Engineering Manager

HPE CONTAINERS ON DEMAND

Consume your container platform

HPE choice of compute and storage

based on certified reference architectures

Consumption-based billing

Pay-per-use¹ consumption of complete solution

Integrated system management

Simplified operations with HPE OneView and HPE Datacenter Care

Optionally Operated for you

Free your teams for more valuable contribution

HPE expertise

Design, implement, train for faster time to value

Consumption-based billing, remote monitoring, and active capacity management
