Agenda

9:00 - 9:30	Rejestracja i kawa	
9:30 - 11:00	Przywitanie i otwarcie konferencji	Wojciech Furmaniakiewicz Head of Technology & Solutions, Red Hat CEE
	Accelerating Your Digital Transition	Phil Andrews Vice President and General Manager, Red Hat CEMEA
	Transformacja cyfrowa w Zakładzie Ubezpieczeń Społecznych	Włodzimierz Owczarczyk Członek Zarządu nadzorujący Pion Operacji i Eksplotacji Systemów, ZUS
	The Rings of Power	Markus Eisele Head of Developer Tools Marketing, Red Hat
	Levering the Power of Digitization	Przemysław Papużyński EMEA Partner Sales Account Manager, Intel Corporation
11:00 - 11:30	Przerwa kawowa	

	Sala A	Sala B	Sala C	Sala D
11:30 - 12:00	Aplikacje w kontenerach i na maszynach wirtualnych. Razem, nowocześnie, devopsowo! Artur Poczekalewicz , Red Hat	Red Hat OpenShift Service Mesh - Czy to recepta na liczne wymagania stawiane aplikacjom? Krzysztof Korzela , Red Hat	Event Driven Architecture - Streaming czy Messaging? - Streaming or Messaging? Andrzej Kowalczyk , Red Hat	Panel dyskusyjny: Transformacja Cyfrowa Sektora Publicznego i Przedsiębiorstw Użyteczności Publicznej Wiesław Paluszyński , PIIT Robert Wierciszewski , Tauron Rafał Borek , Polska Agencja Kosmiczna Agnieszka Kister , Ministerstwo Finansów Paweł Józefacki , UKE
12:00 - 12:30	Optymalizacje - jeden control-plane, a wiele klastrów OpenShift? Da się? Da się! Artur Poczekalewicz , Red Hat	6 sposobów na uruchomienie playbooka Ansible Jacek Skórzyński , Red Hat		
12:30 - 13:00	Konteneryzacja na Red Hat OpenShift – omówienie jednego z wdrożeń dla klienta z sektora finansowego. Michał Chalimoniuk , Cloudware Polska Tomasz Kołaczek , Red Hat	Aplikacje przyszłości, czyli kontenery pełne AI i ML Rafał Skóra , ESKOM IT	Enabling the open hybrid cloud: HPE Greenlake—now with Red Hat! Mirosz Błasiak , HPE Krzysztof Chibowski , HPE Mateusz Maciejewski , HPE Maciej Kalisiak , HPE	Open source for multidisciplinary defense cloud – Ministry of Defense Israel Menny Tsarfati , Red Hat
13:00 - 13:30	Cyberbezpieczeństwo w procesie wytwarzym aplikacji czyli DevSecOps na platformie OpenShift Jarosław Stakuń , Red Hat	Ansible Content Collections - Zarządzanie i dystrybucja z Ansible Automation Platform Jacek Skórzyński , Red Hat		Droga do transformacji cyfrowej TAURON na przykładzie projektów automatyzacji IT i konteneryzacji aplikacji Robert Wierciszewski , Tauron
13:30 - 14:00		Red Hat OpenShift - platforma k8s dla Open RAN i 5G Core Arkadiusz Sitek , Red Hat	Czy na pewno nie potrzebuję dodatkowego admina w mojej organizacji? Red Hat Insights. Zbigniew Parys , Red Hat	Jak Dell i Red Hat pomagają bezpiecznie latać? Bartosz Charliński , Dell Technologies Artur Pająk , Red Hat
14:00 - 15:00	Obiad			
15:00 - 15:30	Udostępnianie i zabezpieczanie nowoczesnych aplikacji przy pomocy NGINX na klastrze OpenShift Grzegorz Kornacki , F5	Kasten by Veeam – dlaczego warto pomyśleć o backupie kontenerów Tomasz Krajewski , Veeam Software	Automatyzacja środowiska wirtualnych stacji roboczych Red Hat – wdrożenie w BNP Paribas Bank Polska Paweł Wojtyra , Integrated Solutions	Trzy rzeczy, o których dostawca chmury Wam nie powiedział Jarosław Stakuń , Red Hat
15:30 - 16:00	KEDA + OpenShift = Custom Metrics Autoscaler Patrik Plachy , Red Hat	Kompleksowa ochrona danych dla rozwiązań Red Hat Paweł Mączka , Storware	Spectrum Protect Plus - Backup OpenShift Virtualization Marcin Steć , IBM	Managed Kafka - How to start Andrzej Kowalczyk , Red Hat
16:00 - 16:30	1000 sposobów zarządzania "secretami" na platformie OpenShift Piotr Mińkowski , Red Hat	Your data, your rules, your cloud and our enabling solution: HPE Greenlake in deep dive for open world enthusiasts! Zbigniew Beisert , Mirosz Błasiak, Mateusz Maciejewski , Przemysław Staszkiewicz, HPE	Red Hat Advanced Cluster Security for Kubernetes Piotr Baranowski , OSEC	Zainspiruj się sztuczną inteligencją Mateusz Doroszko , AI REV Jarosław Stakuń , Red Hat
16:30 - 17:00			Nowoczesne i łatwe do testowania aplikacje Kubernetes za pomocą Knative Chris Suszyński , Red Hat	Monitoring w dobie Cloud Native Maciej Szulc , IBM
17:00 - 17:15	Zakończenie i nagrody			
17:15 - 18:30	Happy hour

Red Hat

What is happening
in your “Digital” world?

In the **banking** industry, tech is initiating a new wave of disruption, forcing banks to operate with **speed**

Open banking transforms how institutions need to think about tech and security.¹

Everything is mobile: **89% of customers** use mobile banking regularly.²

Data, the “new fuel” of the **automotive** industry, is forcing massive **scale** of digital systems¹

Auto manufacturers are becoming **IoT platform and device companies**

Real-time data analysis through AI/ML is key to successful **autonomous driving systems**

¹ Srinivas, Val, Jan-Thomas Schoeps, Tiffany Ramsay, Richa Wadhwani, Samia Hazuria, and Aarushi Jain. "[2020 banking and capital markets outlook: Fortifying the core for the next wave of disruption](#)." Deloitte Insights, Dec. 2019.

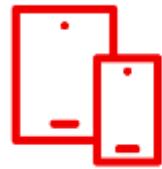

² Meola, Andrew. "[Digital trends disrupting the banking industry in 2020](#)." Business Insider, Aug. 2019.

¹ Meola, Andrew. "[How 5G and IoT are driving the connected smart vehicle industry](#)." Business Insider, March 2020.

In the **Telecommunications** industry, tech is initiating a new wave of disruption, forcing Telcos to design new Infrastructure

Digitisation of all Transactions places massive data loads and demand for scale

Everything is mobile: The network becomes a configurable “Telco cloud” with inbuilt flexibility.

In the **Consumer/Retail Industry** E-Commerce is becoming the de-facto engagement for retail transactions.

Online Presence Existential
It's also mandatory for driving growth and market share capture.

User Satisfaction Critical
Users will migrate to suppliers/retailers with easy and effective to use applications.

Total Experience

PREDICTION #3

In 2021, European enterprises will invest in enhanced customer service and digital engagement technologies at nearly three times the rate of the overall software market to drive customer loyalty and revenue growth.

According to [data from PwC](#), speed, convenience, and helpful, friendly service matter most, and customers are willing to pay more—up to a 16% premium—to businesses that can deliver. Meanwhile, one in three customers will go to a competitor after just one bad experience.

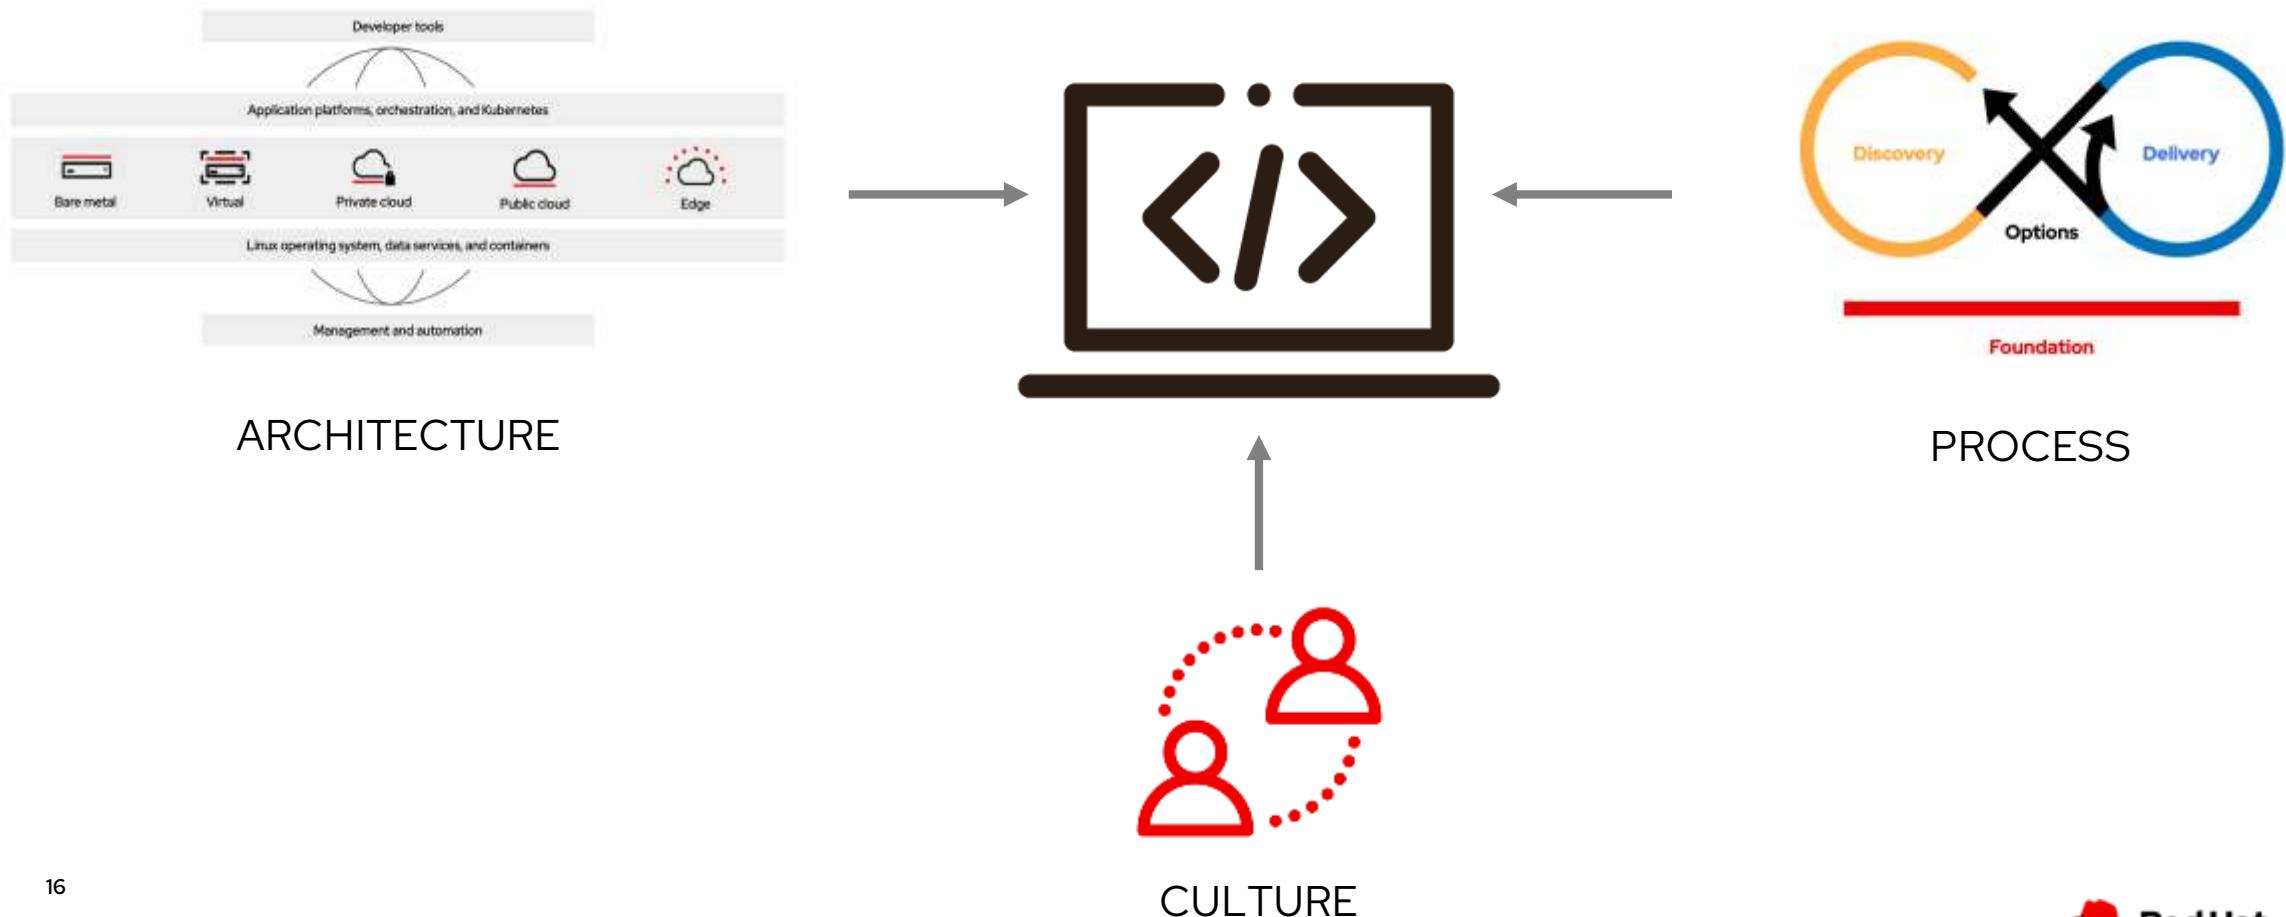

Improved customer satisfaction

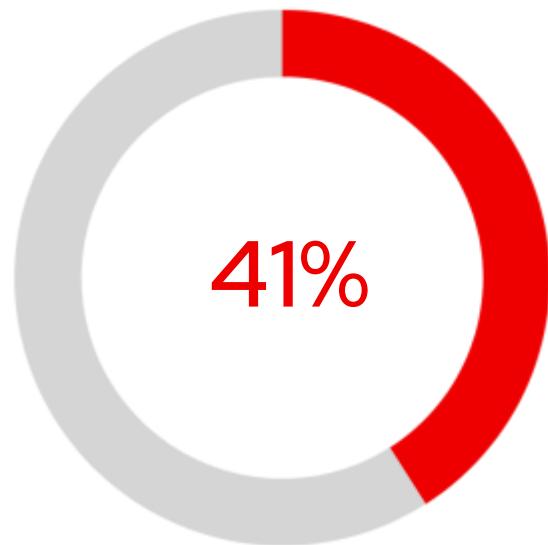

What could accelerate
your “Digital” capability?

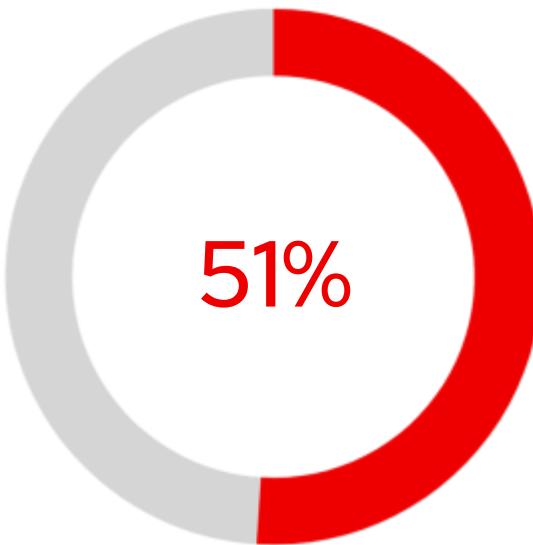

What can be done to Accelerate the Transition Digital business innovation faster?

Challenges Encountered in the Digital Journey ...#1

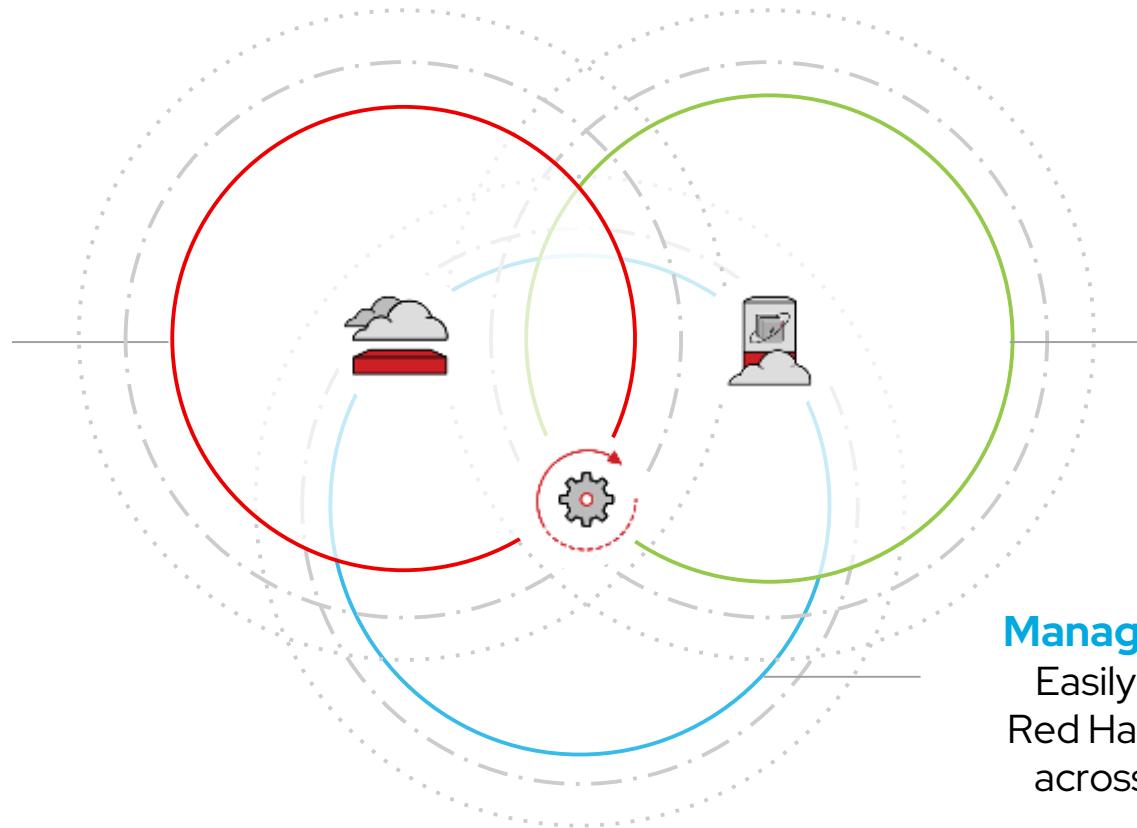

Future architectures are open & agile, hybrid & multicloud

Hybrid cloud

Red Hat's strategy and vision for its portfolio of software, tools, and services built using the open source development model.

Hybrid cloud infrastructure

Secure, scale, & manage foundations for traditional & cloud workloads across all environments

Cloud-native development

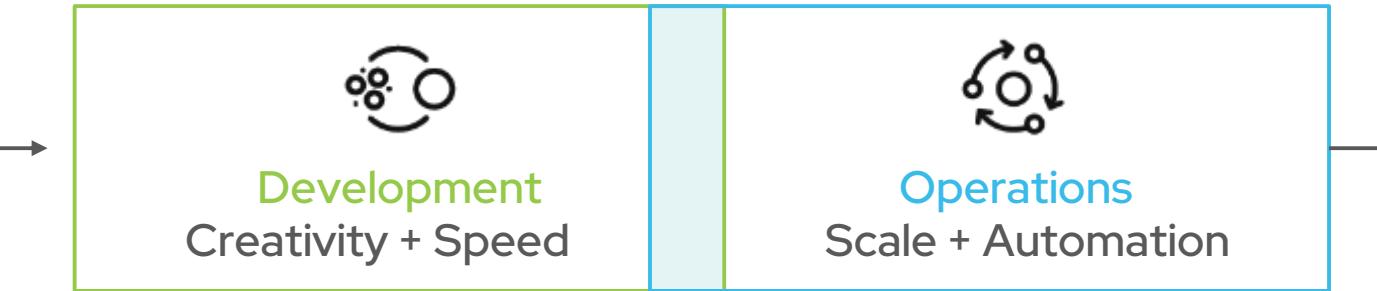

Develop, deploy, & manage any application, on any environment & give developers what they need to innovate

Management & automation

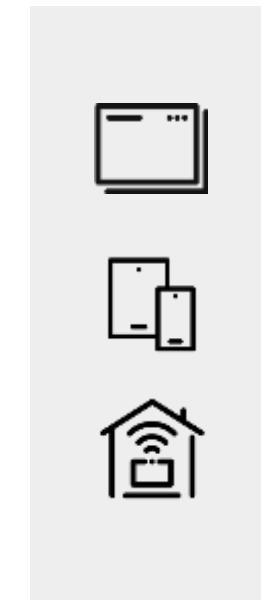

Easily & seamlessly manage Red Hat platforms & automate across hybrid environments

Architecture- What does a “Digital DNA” look like?

Develop

Deploy

Hybrid Flexible Consistent Efficient Independent

KOMPUTER SWIAT | AKTUALNOŚCI | WYDANIA | ZUS NAWIĄZAŁ WSPÓŁPRACĘ Z RED HAT I STAWIA NA OTWARTE OPROGRAMOWANIE

ZUS nawiązuje współpracę z Red Hat i stawia na otwarte oprogramowanie

DAWID DŁUGOSZ | 2 czer, 14:30

ZUS poinformował, że nawiązał współpracę z firmą Red Hat. Celem partnerstwa jest zapewnienie lepszych rozwiązań dla klientów, które będą bazować na otwartym oprogramowaniu. Zakład Ubezpieczeń Społecznych chce w ten sposób lepiej rozwijać własne platformy, które obsługują miliony Polaków.

SGB-Bank eliminates downtime for partner banks and customers

Software and services

Red Hat JBoss® Enterprise

Automation Platform

SGB Group was established in 1990, bringing together nearly 200 cooperative banks across Poland, with SGB-Bank providing IT services for the group's banks. SGB-Bank selected Red Hat OpenShift with assistance from Red Hat Consulting to implement microservices and containers that would help it better serve customers. With reliable enterprise open source support, SGB-Bank eliminated downtime, improved agility, accelerated time to market, cut costs, and can dependably scale processing.

Challenges Encountered in the Digital Journey ... #2

The Process Challenge

Focus Areas
Train,
Standardise
& Automate

Change Management skills- Agility/Creativity

Business Transformation Approach-New Ways “to do”

Development processes and skills “Devops”

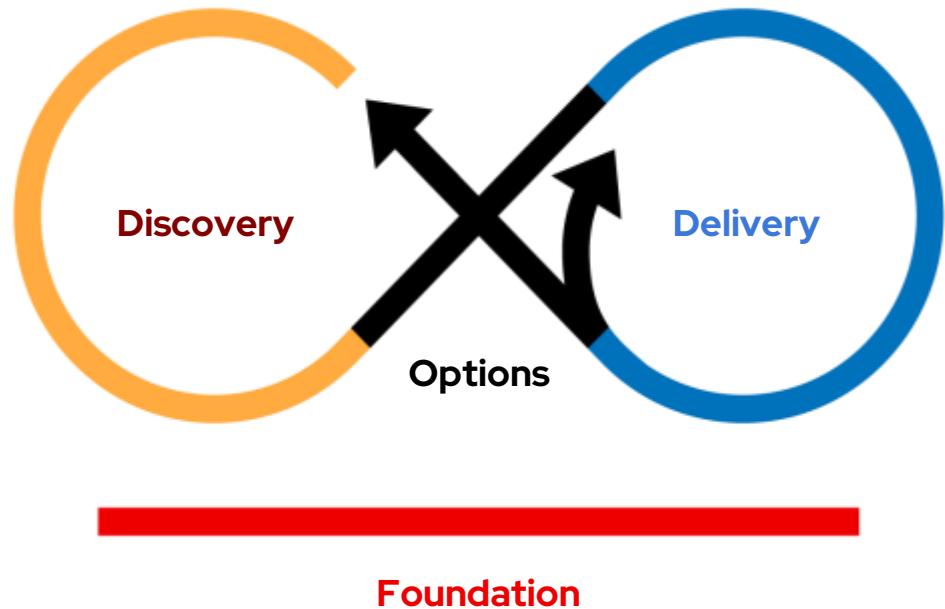

Leadership
Challenge,
Enable &
Encourage

Open Practice Library

<https://openpracticelibrary.com/>

Deliver real business value with agility

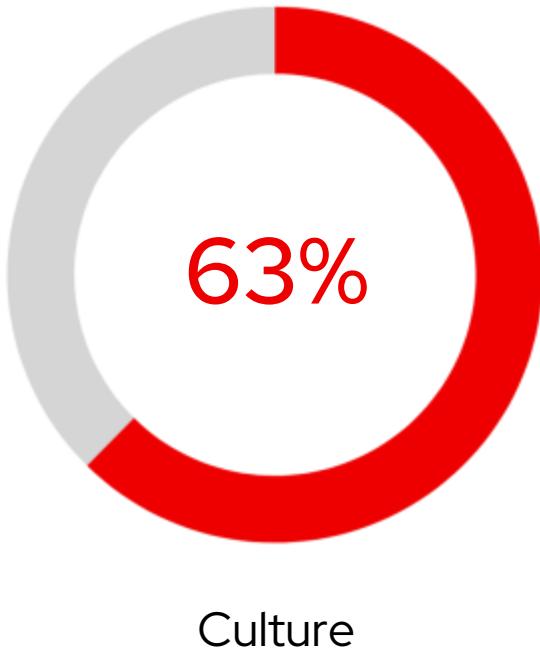

The foundation creates a team culture of collaboration and technical engineering practices. Without this foundation, teams cannot reach sustainable continuous delivery.

Why are you doing this?
What problems will it solve?
How will you measure the results?

Compare what you've learned with the direction you are heading.
What are the possibilities?
What do you need to realize the outcomes you want?

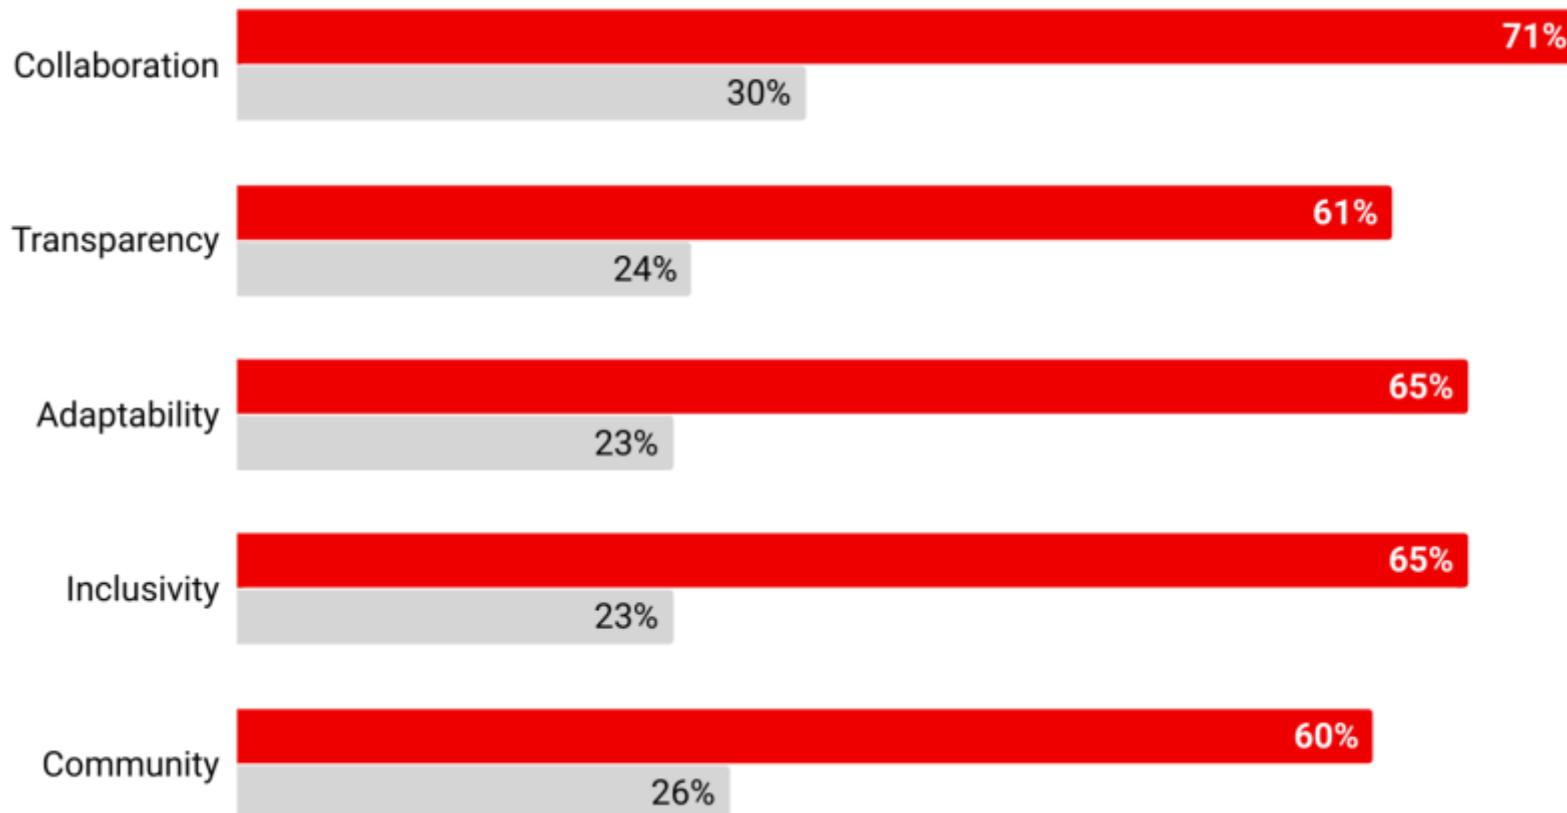

Deliver the features you have determined and get feedback from users and stakeholders.
What was the impact?
What did you learn?

#3 Culture challenges remain the biggest impediment to transformation efforts

Digital transformation leaders do things differently

Cultural characteristics are key to transformation success

Key cultural characteristics of digital transformation

Percentage of respondents who said each of the following cultural characteristics was very important in enabling digital transformation in their organizations. (May select more than one.)

Digital transformation leaders

Everyone else

Culture- Fostering innovation

Leadership is support is Crucial!

Avoid long-term roadmaps.
Have a vision, but plan just enough to get started.

Use rapid feedback cycles.
Try new and daring things, but fail fast.

Automate as much as possible.
Use test-driven development and continuous integration and delivery.

Break big things into small chunks.
Work incrementally.

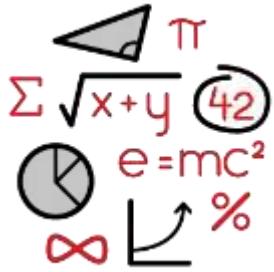

Experiment to inform strategy.
Turn small failures into learning opportunities.

Build new skills.
Use pairing and mentoring to share across teams, departments, and organizations..

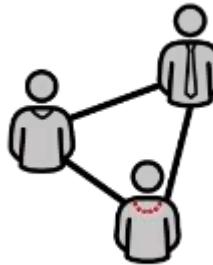

Rapid innovation & real business results

With **Red Hat Open Innovation Labs**

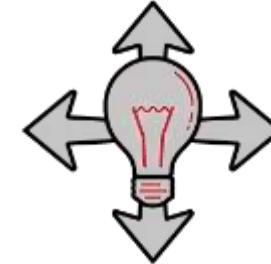

Experiment

Rapidly build prototypes,
do DevOps & be agile

Immerse your team

Work side by side with experts
in a residency-style engagement

Innovate

Bring modern application
development back to your team

Open Innovation Labs

DevOps Culture and Practices Enablement

1 week

Individual participation

An immersive experience in DevOps culture, modern software development practices, and modern application development architectures

- ▶ Certified instructors for the enablement program

Residency

2 months

3-6 customer residents

An engagement where Red Hat architects, designers, software engineers, and engagement leaders work alongside a customer team of 3 to 6 people to cocreate digital solutions

- ▶ Customized practice libraries
- ▶ Communities of practice

Open Transformation

1-3 years

Organization wide

Focused on helping customers achieve digital transformation through a customized approach on technology (enables) + people + process.

- ▶ Pairing open technology + practices with a cultural foundation.

Red Hat's approach to an agile business

Airbus builds faster application delivery

AIRBUS

Customer challenge

Airbus has a transformation goal to offer their services on-demand, on any platform. To achieve this goal, they needed faster, more efficient development of cloud-native applications..

Solution

Airbus joined Red Hat in a six-week Open Innovation Labs engagement. Using Open Practice Library activities and processes, Airbus's teams learned DevOps practices for building cloud-native applications.

Results

Airbus teams were able to quickly deliver cloud-native applications across their business.

Strategic alliance partners

The Power of Two Rings

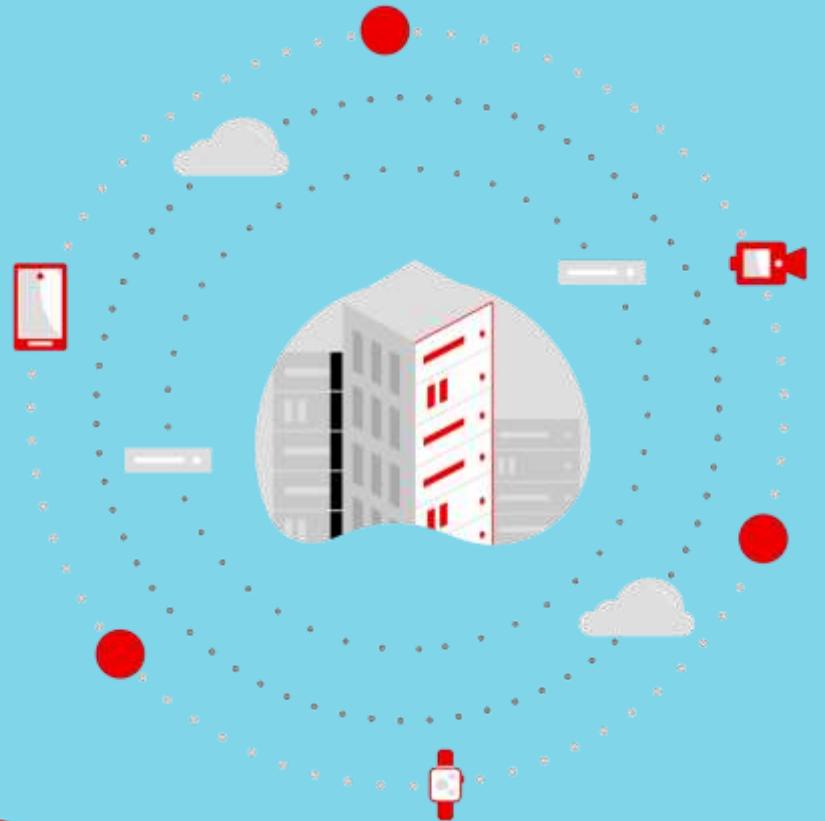

þó þér nái þígyða

Every organization is
facing a decision
about its **future**.

What you build **today**
determines what is
possible **tomorrow.**

Creating value depends on your ability to deliver applications faster

Cloud-native
applications

AI & machine
learning

Analytics

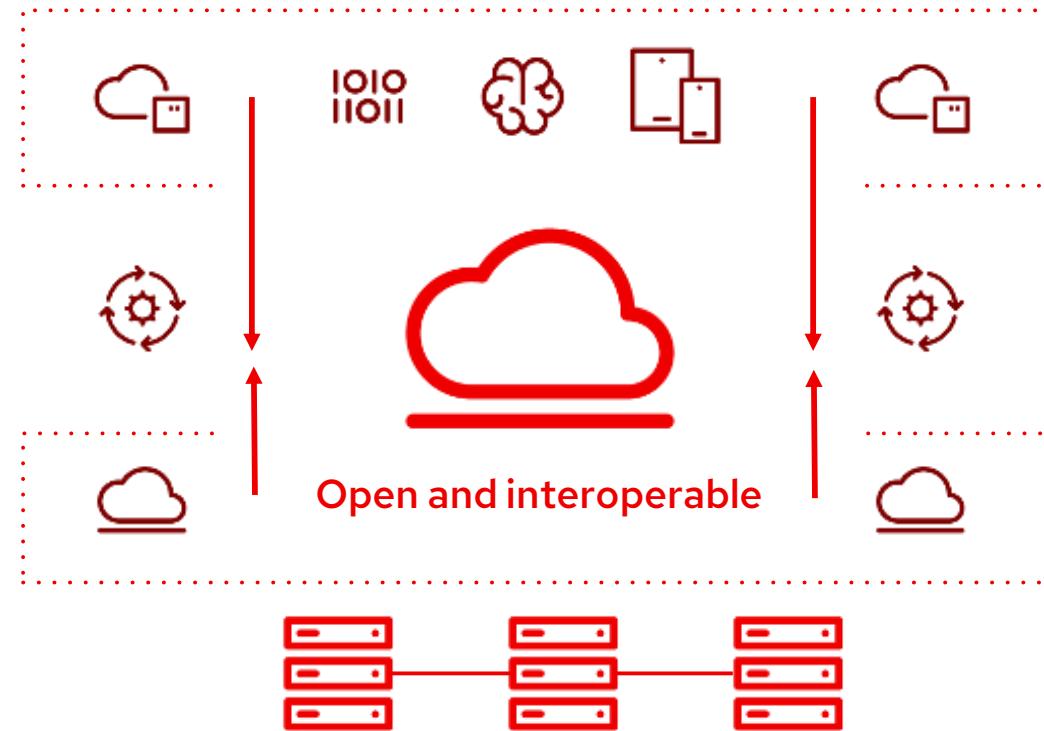

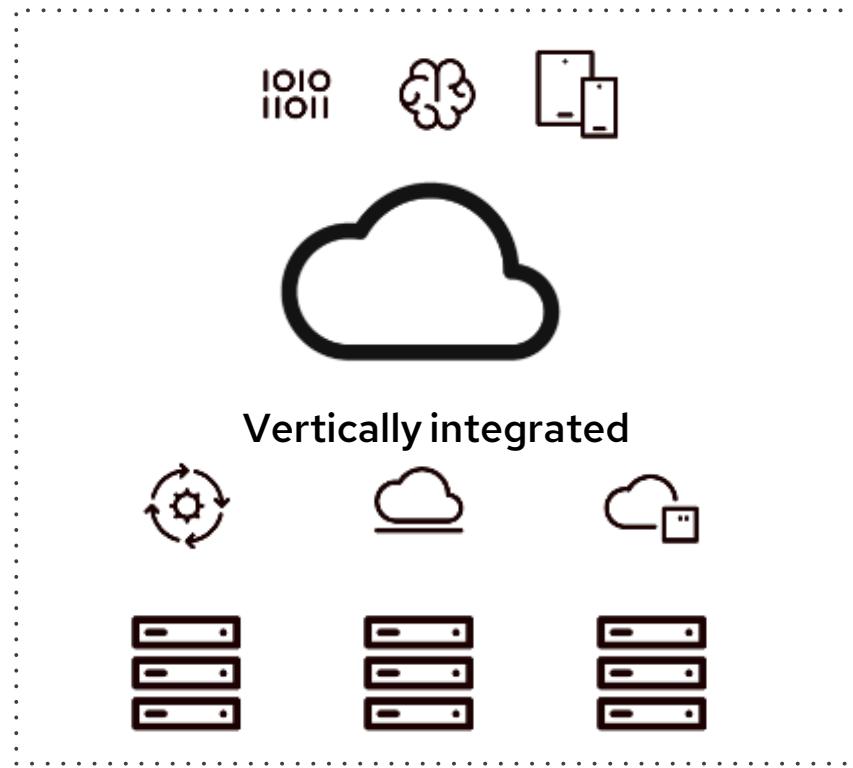

Internet of
Things

Innovation
culture

Open source is the
innovation engine
for the industry.

Example of Upstream dynamics: **Kubernetes** velocity

1.64M

Lines of code

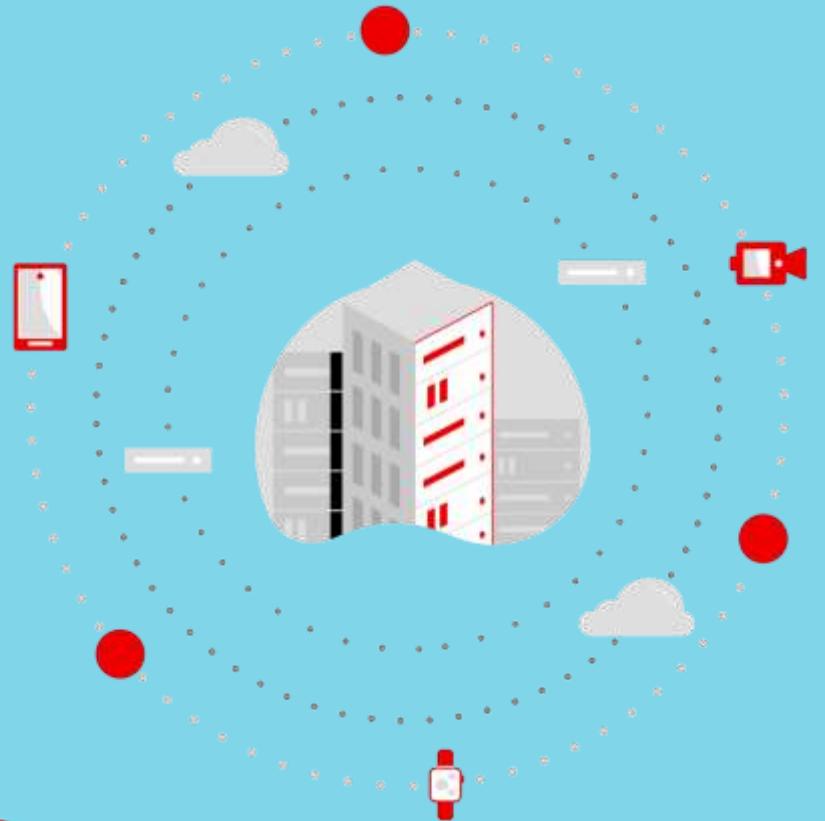

3,696

Committers

35

Changes per day

Over three years and 12 significant releases, 68% of the code has changed.

How you build **today**
determines what is
possible **tomorrow.**

WALL OF CONFUSION

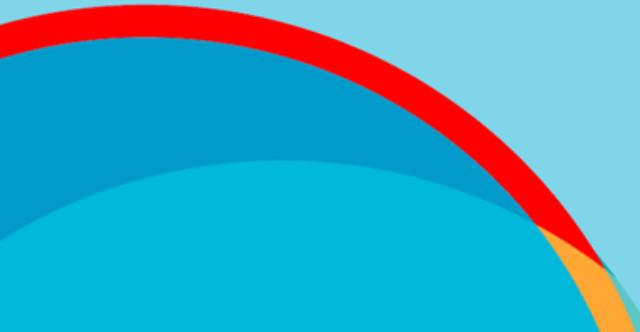

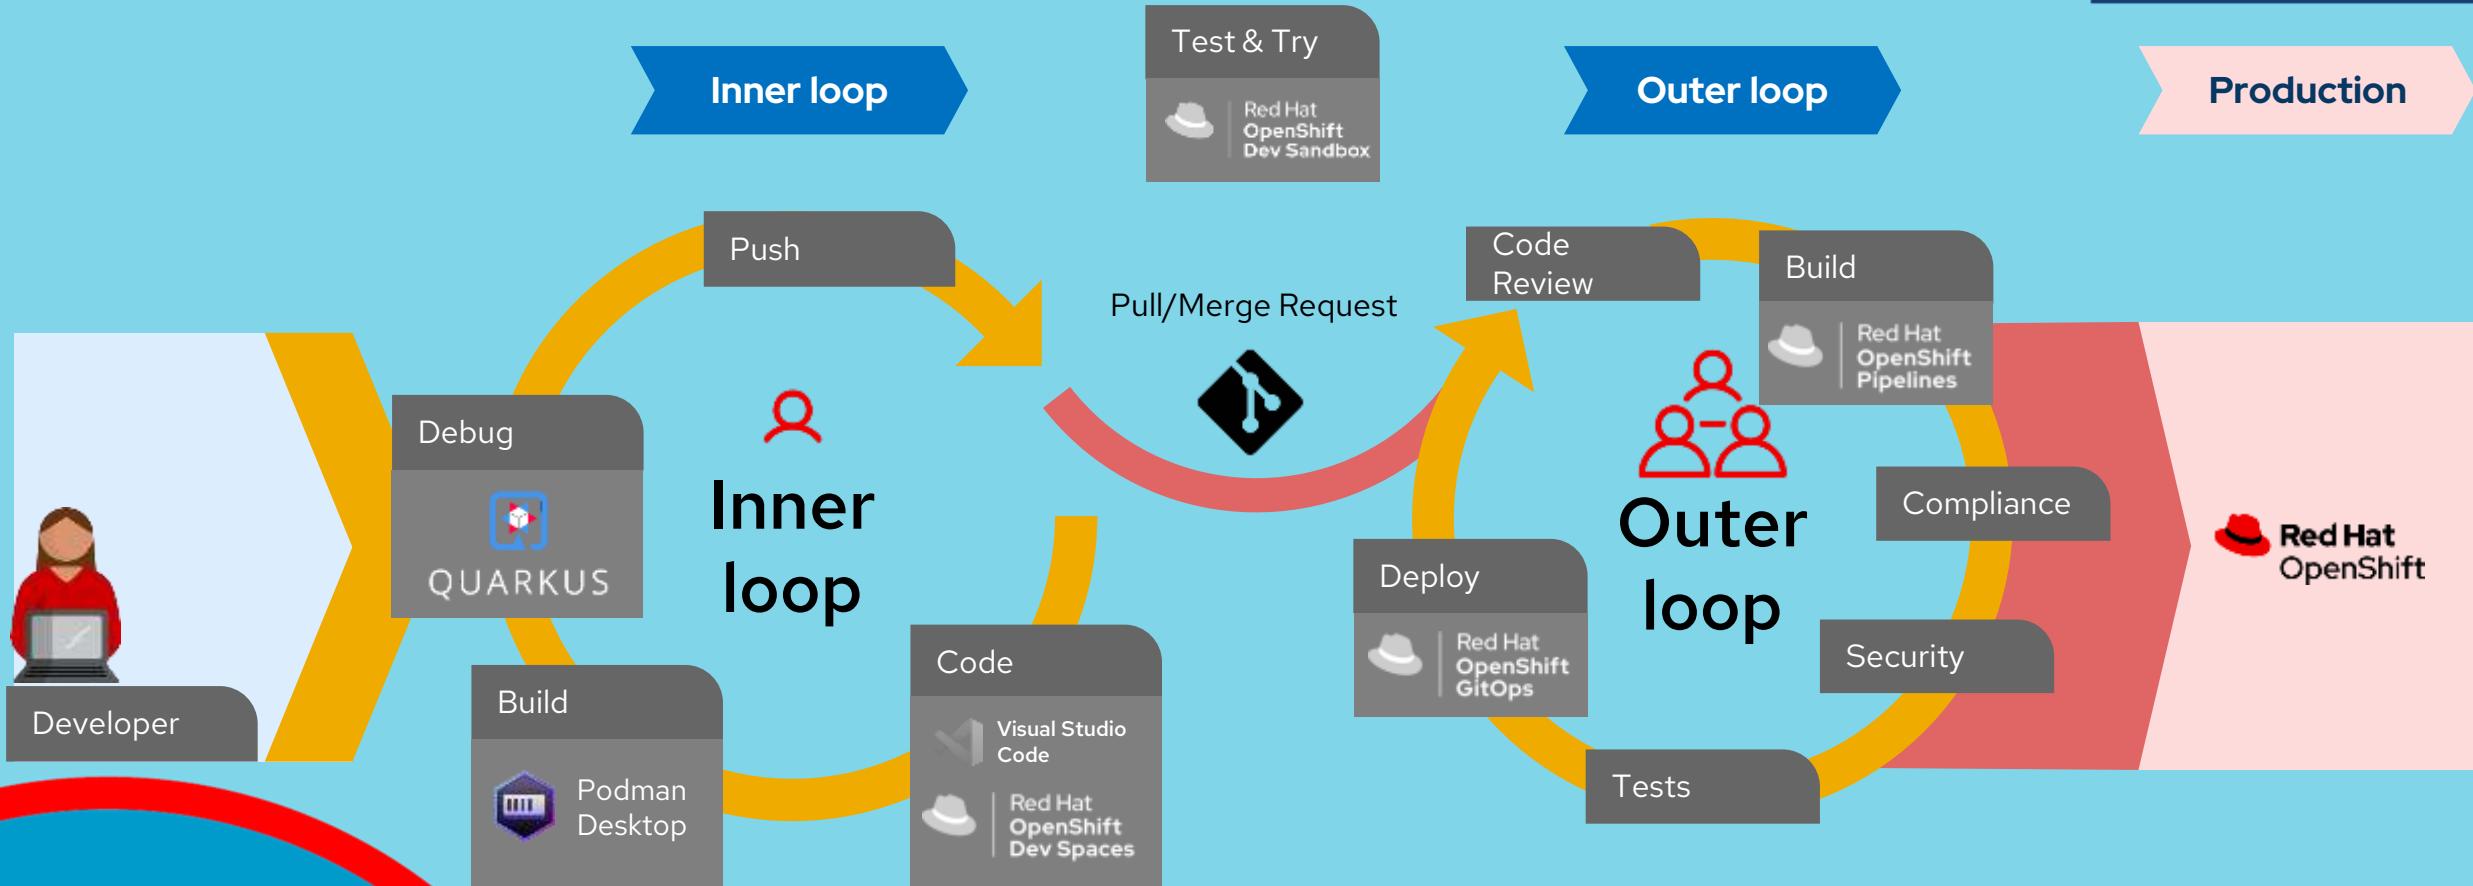

Developer Flow

How Developer Tools bring customers from code to production

Daniel Feldman.yaml

@d_feldman

every software engineer's dream is to get rich, buy that goat farm in the country, and then retire to the server room in the basement of the goat farm so they can actually finally write code

10:14 PM · Apr 12, 2022
