

# DevOps @ Scale

Transform your core IT into a service-oriented digital platform, to serve your business needs for speed, agility & quality

Graham Zabel – Head of DevOps – Devoteam UK  
October 2018

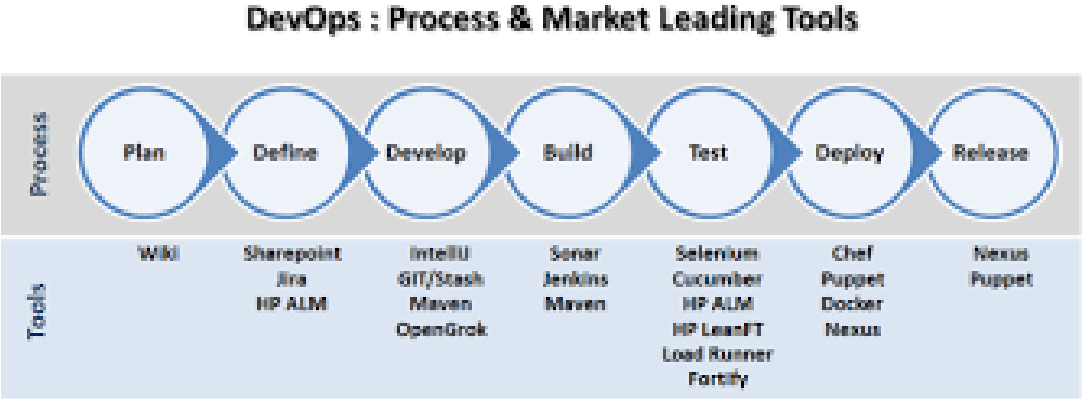

# What is DevOps?

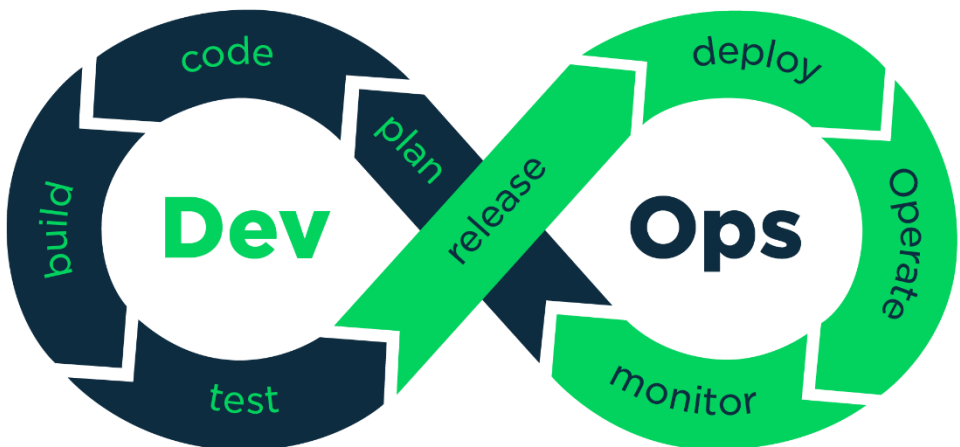

Better quality software, faster.

# DevOps Models

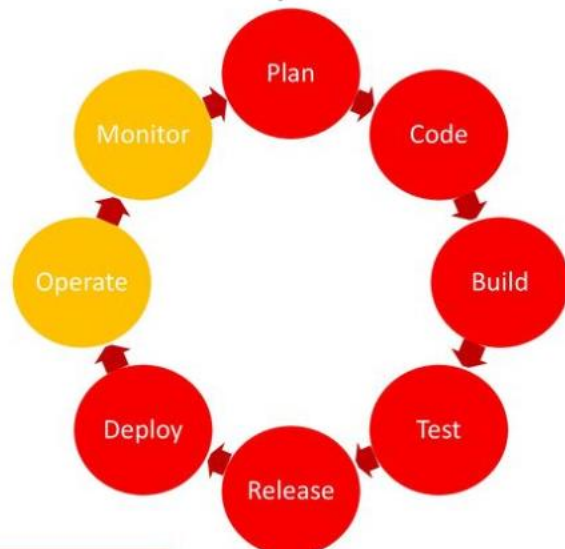

## Pipelines

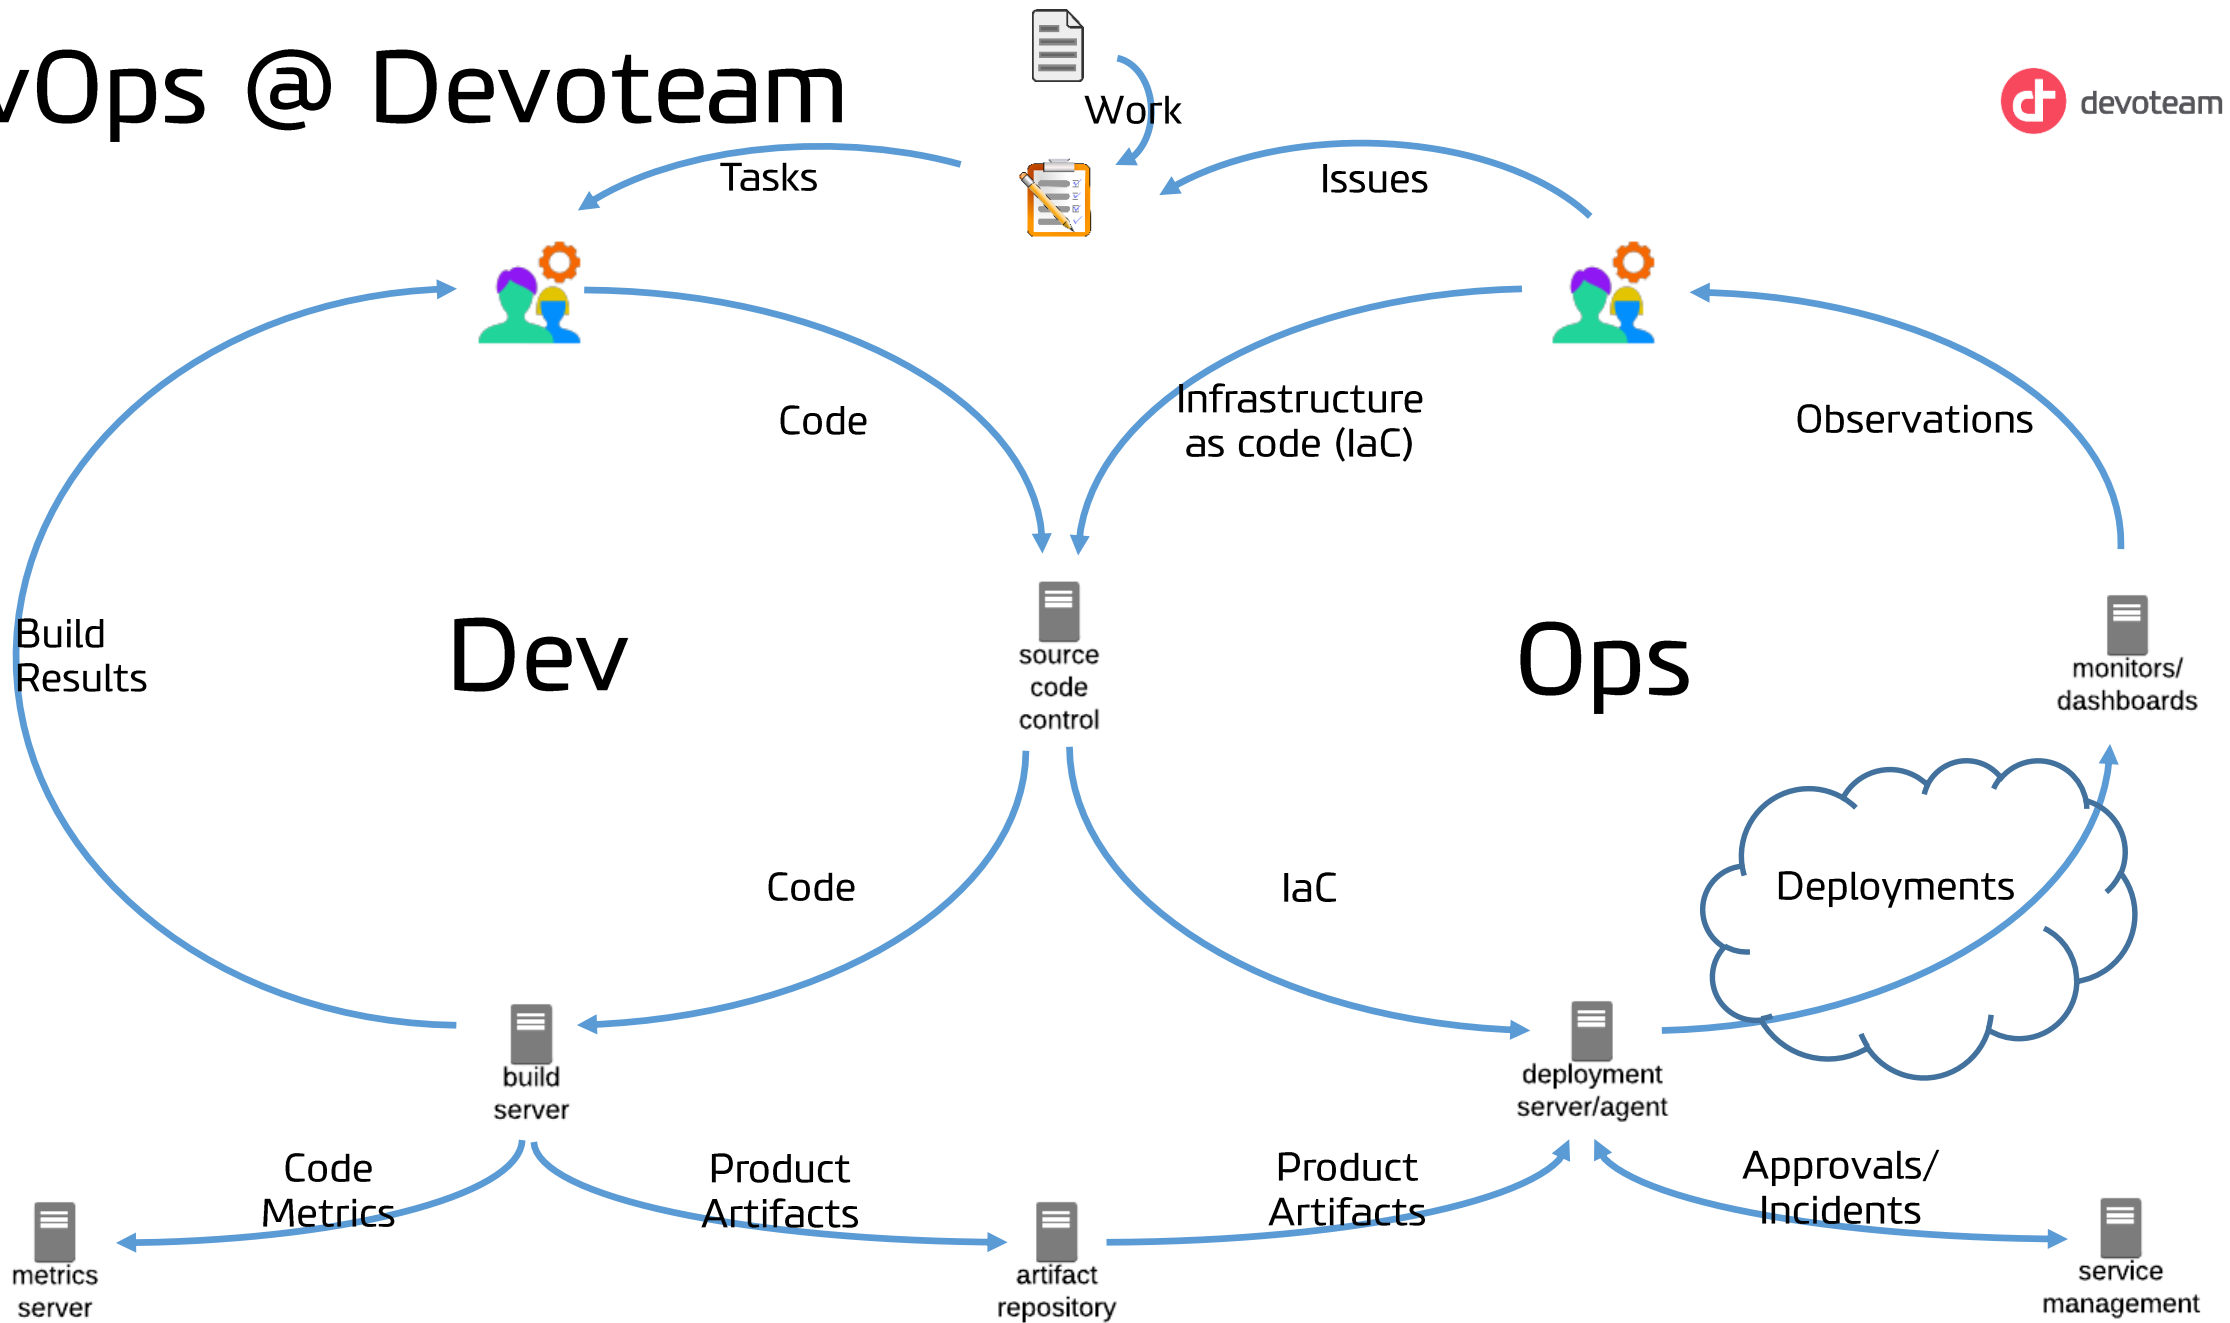

## Figure of 8

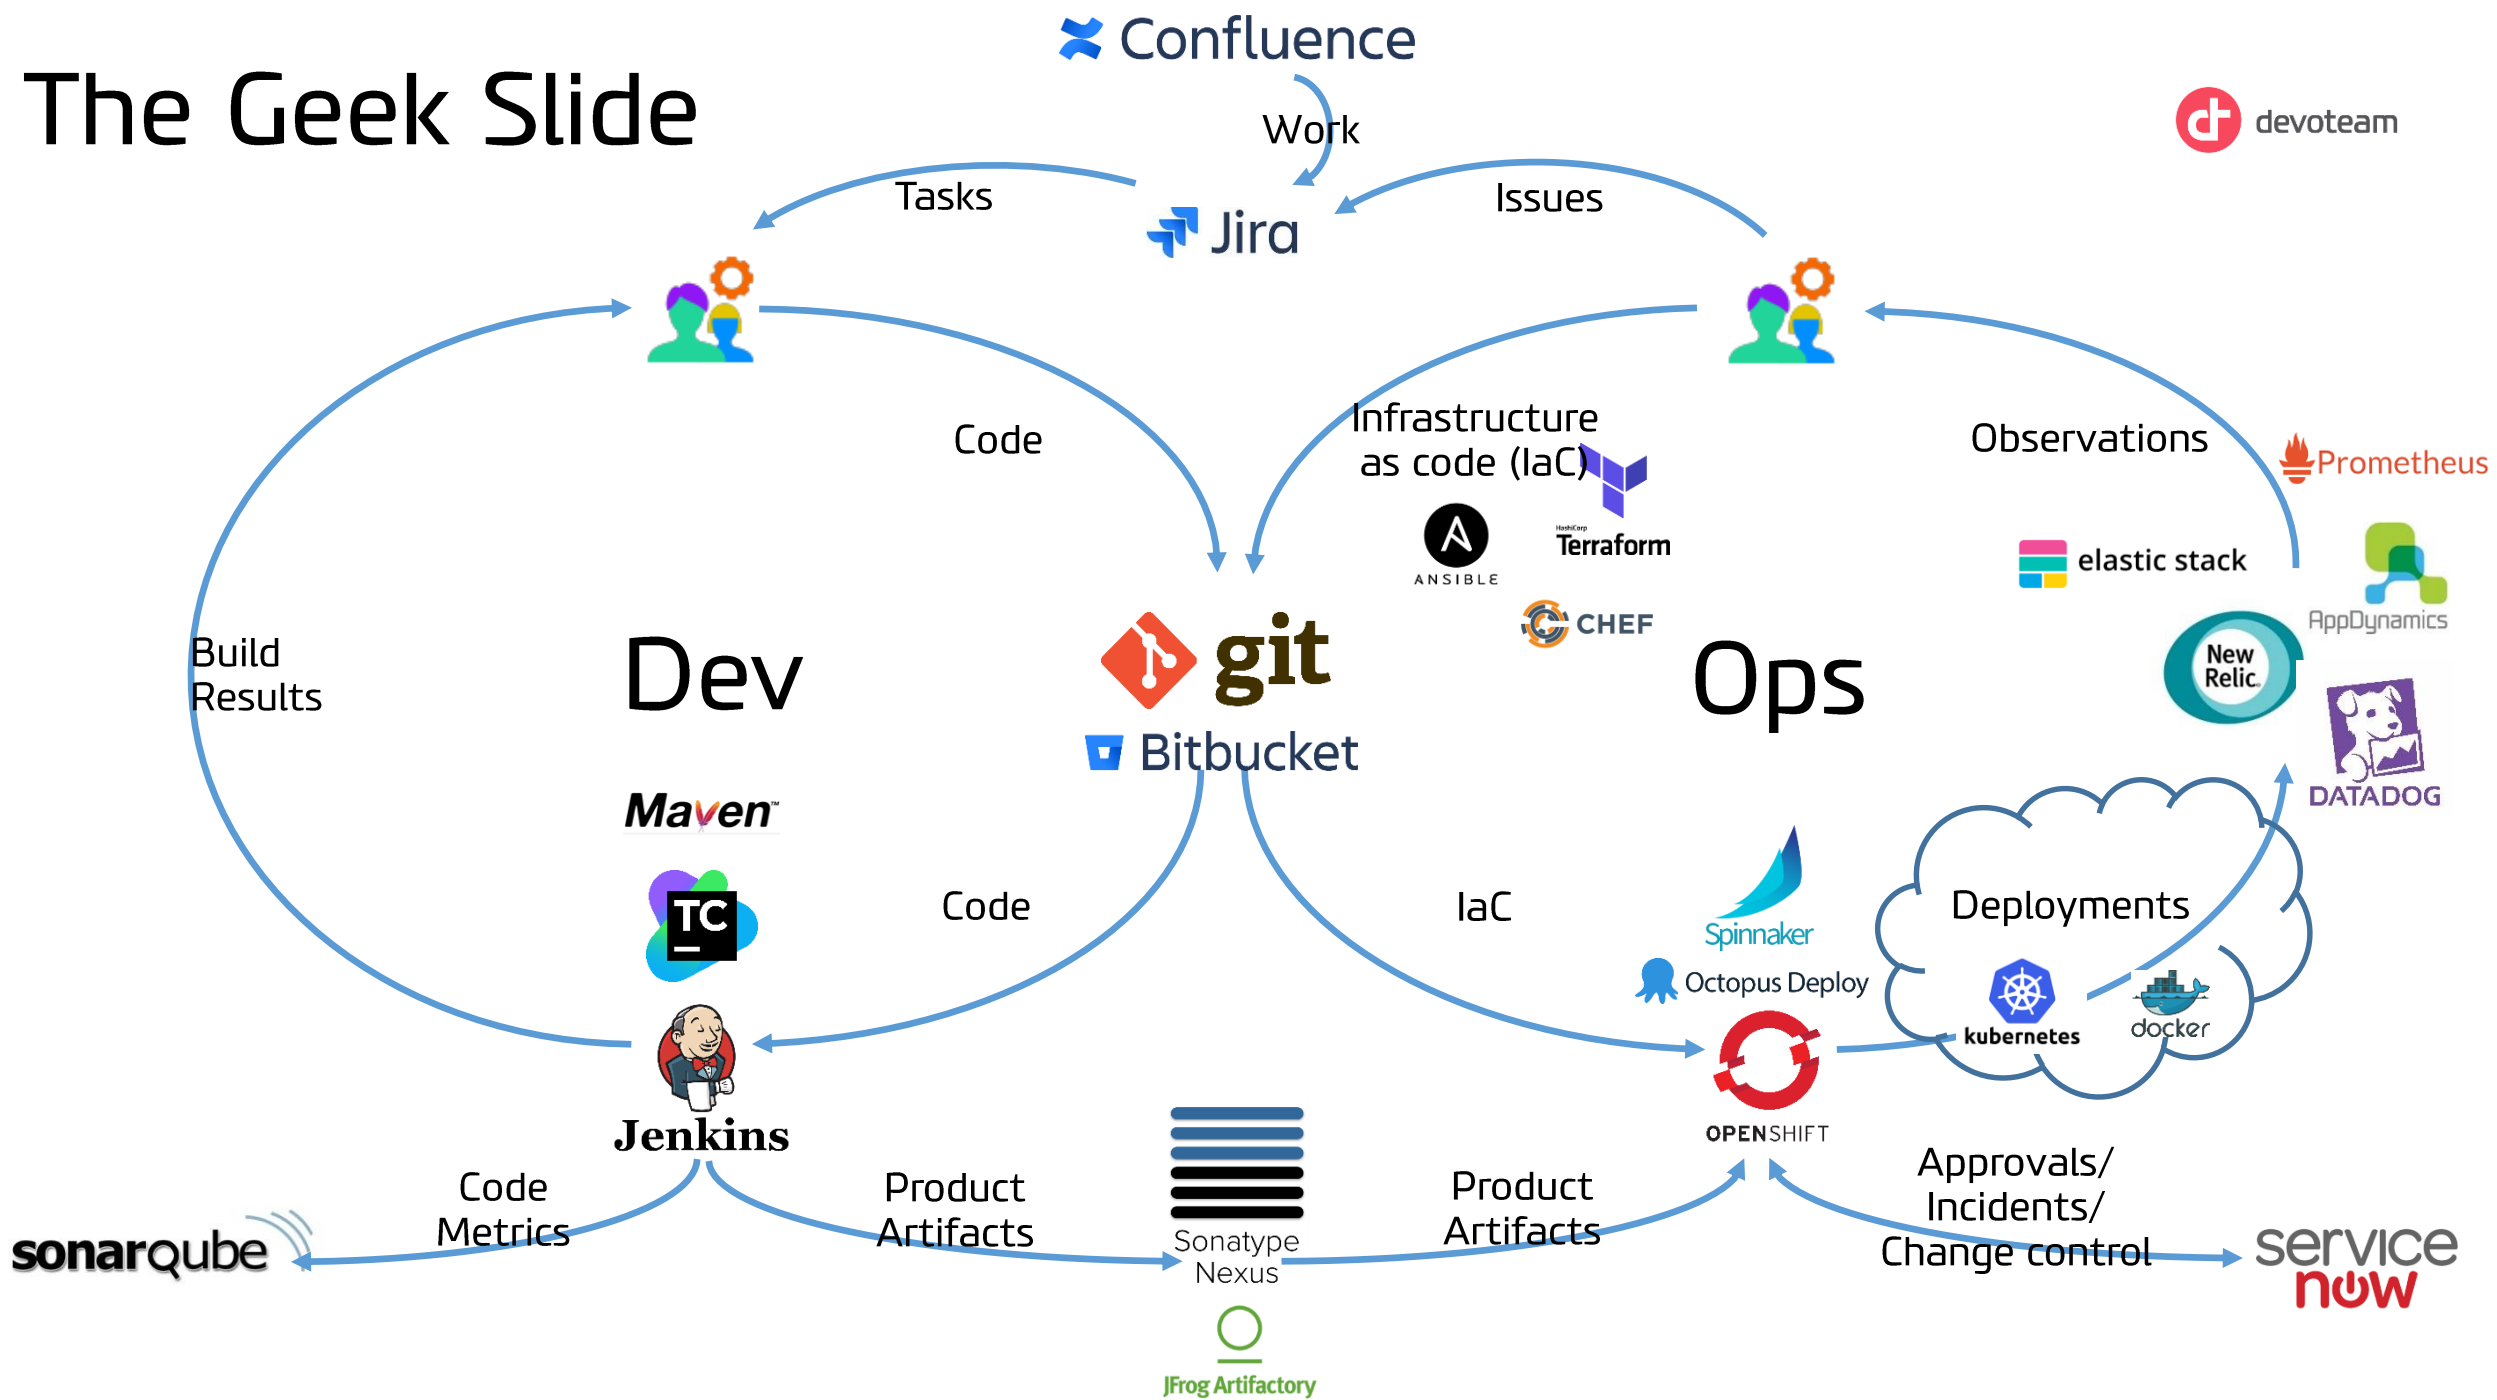

## Circles

# DevOps @ Devoteam

# The Geek Slide

# Evolving DevOps @ Scale

Shadow DevOps -> Enterprise DevOps -> DevOps as a Service

Visualise -> Stabilise -> Optimise \*

# How Devoteam can help

- DevOps Assessment

- Metrics and Measures. Scorecards. Tooling landscape. Pain points. Business Case.

- DevOps Enablement

- Culture *and* Tools
- Centralised tools/services. Communities of practice. Centres of excellence. Training at scale.
- Monitoring Tools

- DevOps as a Service

- DevOps automation. Containers and Cloud.
- Monitoring Practice
