

# Modernizing Virtualization for the Future

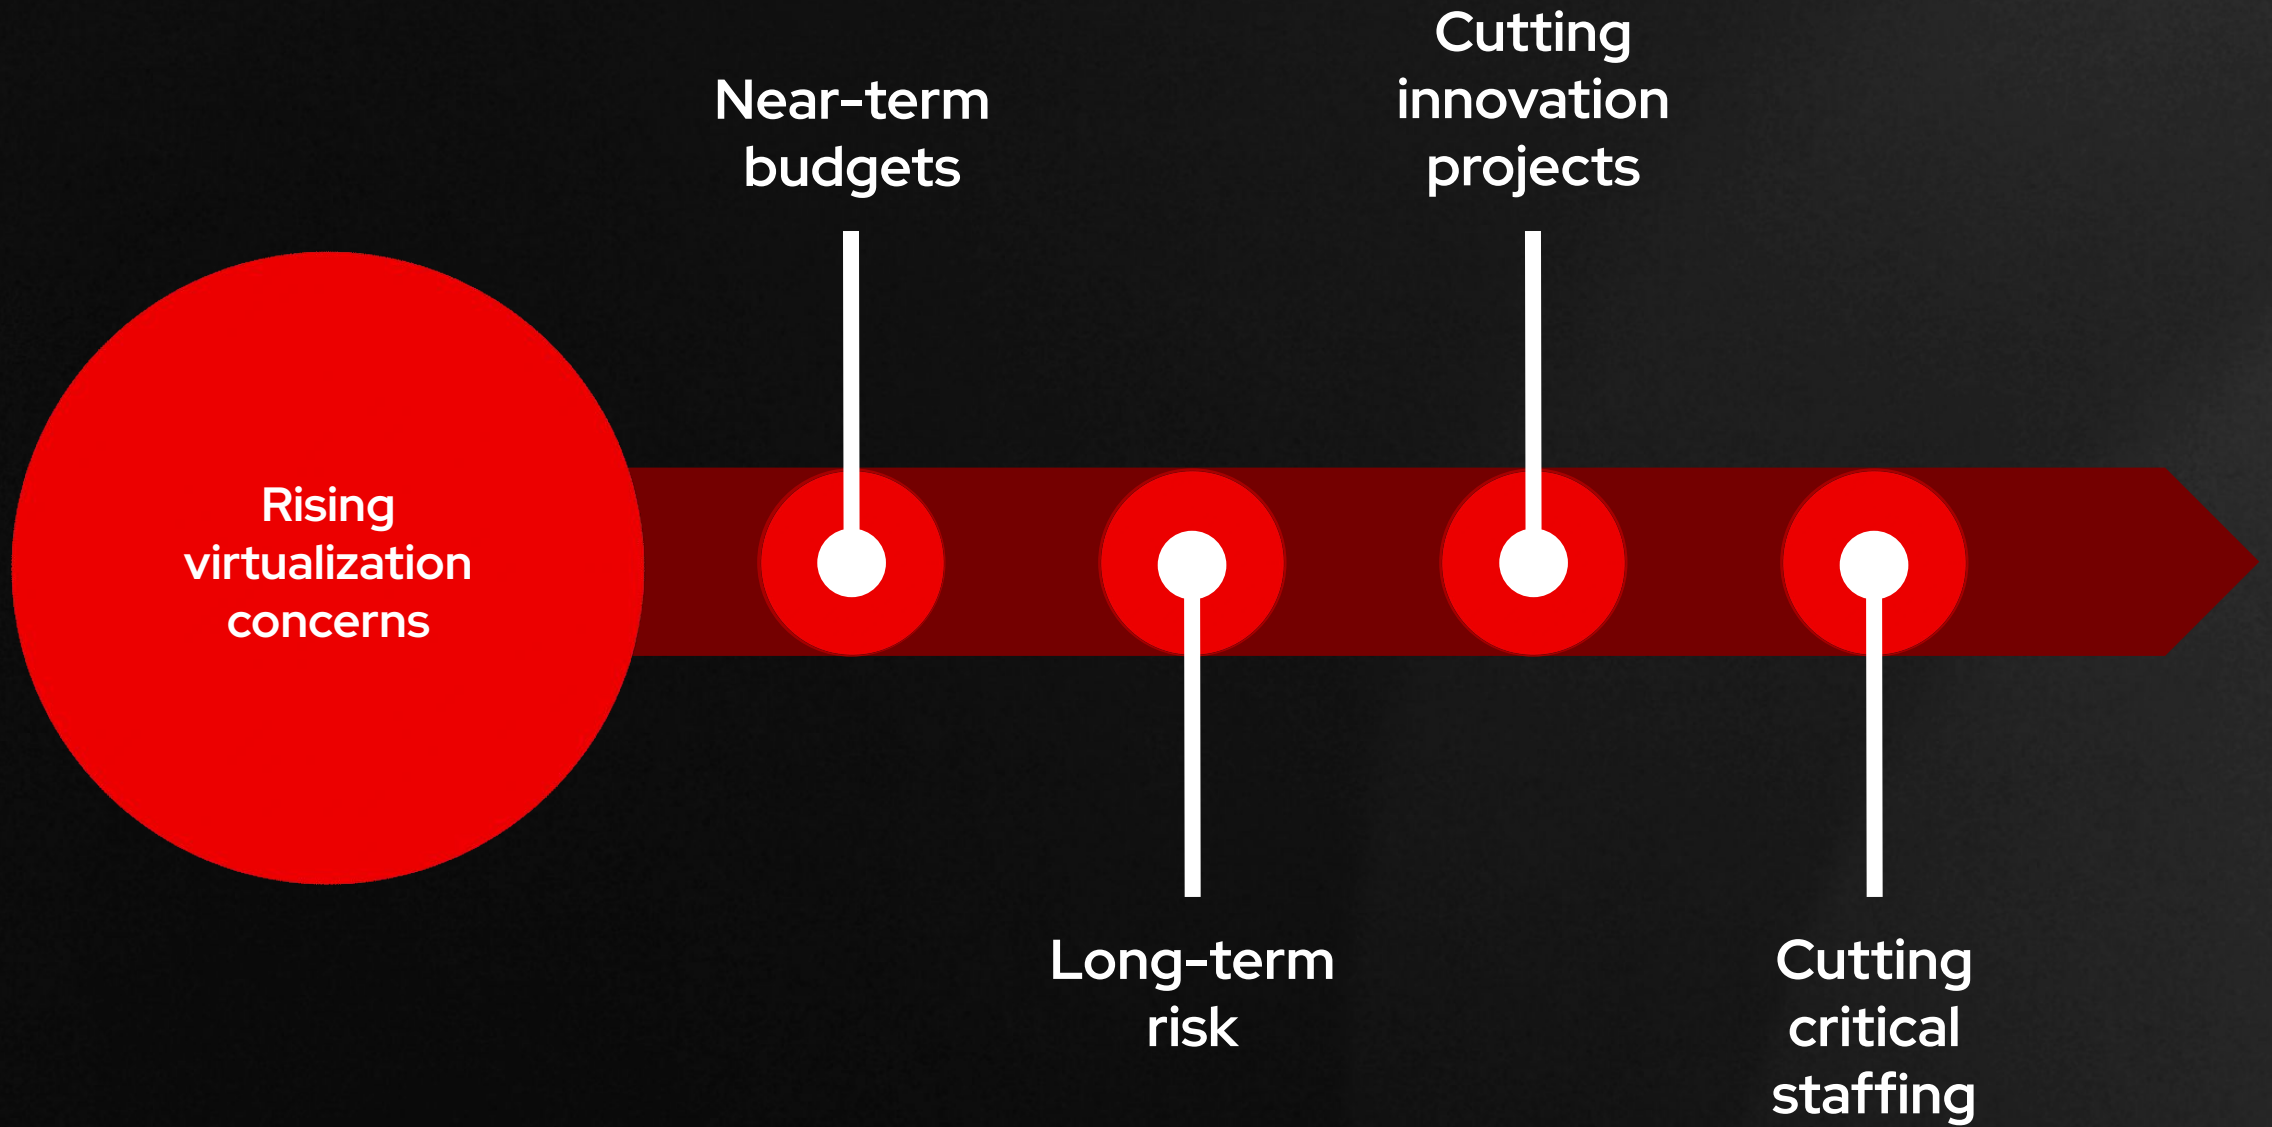

## Stefanie Chiras

Senior Vice President Partner Ecosystem Success  
Red Hat

Rising  
virtualization  
costs

# Red Hat OpenShift Virtualization

RHEL VMs included

Windows VMs support

Migration tools

Unified  
management

Consistent  
operations

Performance  
& stability

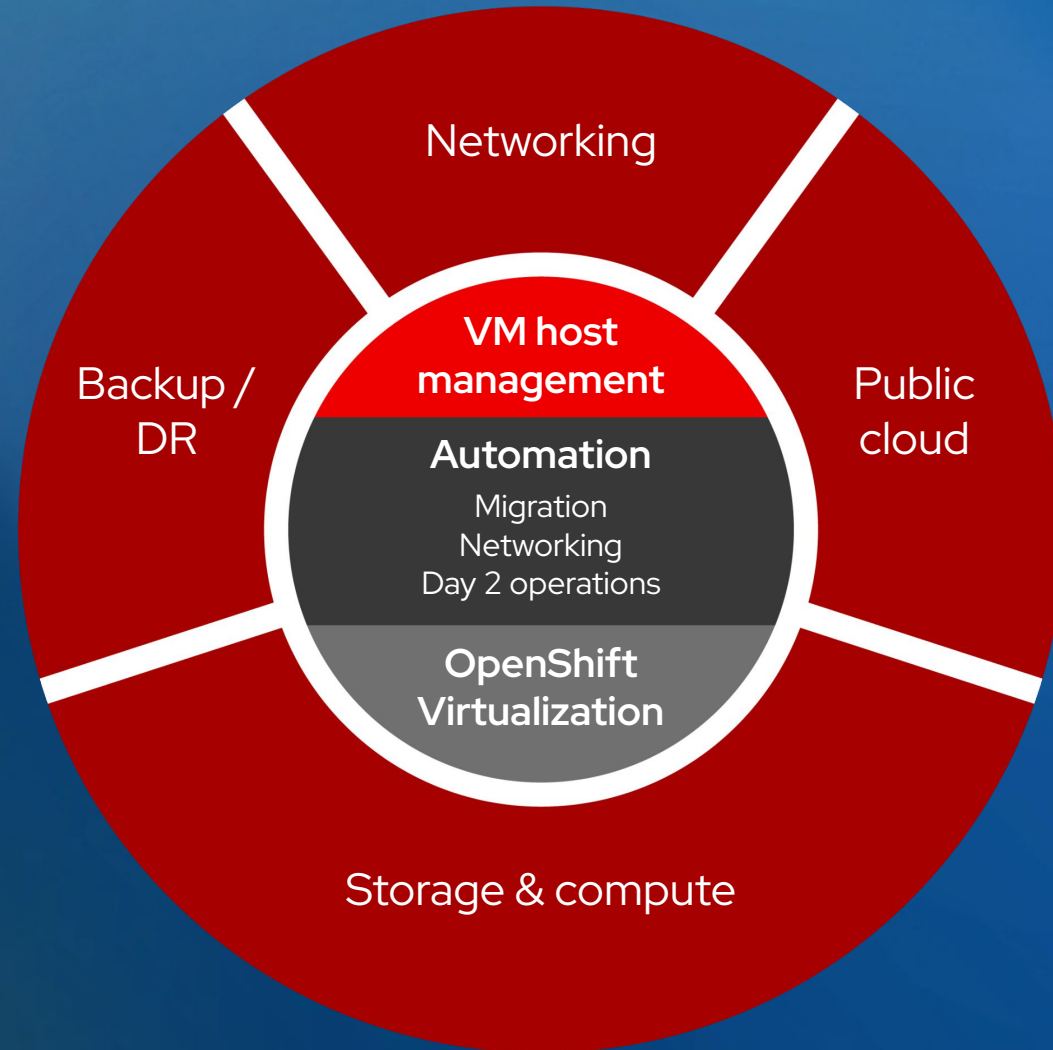

Robust  
open source  
community

Diverse  
partner  
ecosystem

Unified platform for virtual machines and containers

Open Hybrid Cloud

# Open virtualization infrastructure

# ISV partners to complete the solution

## Storage

Products for OpenShift VIRT using CSI (container storage interface)

**HITACHI**  
Inspire the Next

**portworx**  
by Pure Storage

**PURESTORAGE**

**DELL** Technologies

**Hewlett Packard**  
Enterprise

**NetApp**

**IBM**  
Storage Fusion

**INFINIDAT**

## Backup/DR

Products for OpenShift

**storware**

**veeam**

**portworx**  
by Pure Storage

**TRILI**

Coming Soon:

**VERITAS** **COHESITY**

**Commvault** **rubrik**

## Networking

Products for OpenShift VIRT using CNI (container networking interface)

**ISOVALENT**

**TIGERA**

**CISCO**

**f5**

## Cloud Services

Current public cloud providers offering OpenShift VIRTUALIZATION

**aws**

**Red Hat**  
**Ecosystem Catalog**

Listings of current partner products that are certified or completed statement of support.

## Global Investment Bank

*"...it allowed folks who spent the **last decade or so on existing technologies** to get up to speed with a newer subset of technologies to really help drive to **create a single solution** where we deploy one set of capacity and then burn down that capacity whether it becomes a VM or it becomes a container... a **big thanks to Red Hat team that's stuck with the project, worked with us day in day out, and really helped enable a solution to help modernize our underlying compute platform.**"*

*–VP Tech Fellow, Global Investment Bank*

SiriusXM

*“Migration was the easiest part. Once you have MTV [Migration Toolkit for Virtualization] speaking to an API, [the tool] it brings [the VMs] them in quickly with little to no down time. It’s the right tool for the job. Once we have the network setup, and everything placed where it needs to be, **the VM goes exactly where you need it to go and starts working immediately.** As far as migration goes, it’s a great tool.”*

- *Nate Mason, Associate Director, Unix Systems Group SiriusXM*
