Welcome to
Red Hat Summit Connect London

Joanna Hodgson

Country Leader, UK, Red Hat

Agenda

11:00 – 11:25	Break & Partner Exhibition			
11:00 – 11:25	Ask the Expert at the Red Hat booth: Virtualisation Partner Silent Theatre Session – Veeam: Protecting Applications and OSPV with Kasten			
	Room: Main Plenary	**Room: Aldgate**	**Room: Cripplegate**	**Room: Dowgate**
11:25 – 11:55	**DNEG**: Leveraging 3Scale with OpenShift to enhance API management in Film and TV	**Intel**: Enhancing Enterprise AI with RAG: Boost your AI's intelligence by seamlessly merging real-time data with LLMs	The business impact of mission critical automation	"Cold start" fast flow - using external suppliers to bootstrap a nimble, flow-centric organization
12:00 – 12:30	**JPMorgan Chase** reaches goals with next-generation automation solutions	How **Kyndryl** leverages Red Hat Ansible for business outcomes	Optimising AI workloads with Red Hat	Event-Driven Automation - Filter the boredom
12:30 – 13:15	Lunch & Partner Exhibition			
12:30 – 13:15	Ask the Expert at the Red Hat booth: Training Partner Silent Theatre Session – IBM: Hybrid-by-Design: unlocking the value of cloud transformation			
13:20 – 13:50	**Worldpay's** Platform as a Product	Cloud Modernization powered by Red Hat and **AWS**	Image Mode for RHEL	Sustainability in the AI Era: IT ambidexterity in managing IT demand as well as IT efficiency
13:55 – 14:25	**National Energy System Operator**: Driving success with DevSecOps on OpenShift	Innovate with **Azure** Red Hat OpenShift to Build Intelligent Applications	How Quarkus makes your apps cheaper, greener, and happier	How ROSA enables MarketAxess to deliver our first AI driven product SensAI
14:30 – 15:00	Bank in a box: High-performance trading systems with multisite self-healing using Red Hat OpenShift with **Citi**	**Nutanix** & Red Hat: The Power to Simplify (Modern Infrastructure for Modern Apps)	Red Hat Developer Hub - Backstage powered Development Portals, Compliant, Efficient and Secure	Preparing for a cloud native future with OpenShift Virtualization
15:00 – 15:20	Coffee Break & Partner Exhibition			
15:00 – 15:20	Ask the Expert at the Red Hat booth: AI Partner Silent Theatre Session – Portworx: From Pods to Constellations: Scaling Developer Success in Kubernetes with Robust Data Services			
15:25 – 15:55	Navigating the Automation Landscape: **Aviva's** Journey with Ansible Automation Platform	AI in a box **Accenture**	ROSA and ARO in 2024: the art of the possible	Should you invest in platform operations? How OpenShift Cloud Services can save time cost and effort.
16:00 – 16:30	Defining your future Virtualisation Strategy	Red Hat & **Dell** Technologies, accelerating ideas to innovation	Ansible Automation Platform Roadmap - headlights on what's coming	AI Panel Discussion: Red Hat's view on AI in a Hybrid Cloud world
16:35 – 17:10	AI from the Cloud to the Edge - Cool Stuff Store Demo [live demo]			
17:10 – 18:30	Networking Drinks, Partner Exhibition & Red Hat Branded SWAG			

3

Where do we go next?

Agenda

11:00 – 11:25	Break & Partner Exhibition			
11:00 – 11:25	Ask the Expert at the Red Hat booth: Virtualisation Partner Silent Theatre Session – Veeam: Protecting Applications and OSPV with Kasten			
	Room: Main Plenary	**Room: Aldgate**	**Room: Cripplegate**	**Room: Dowgate**
11:25 – 11:55	**DNEG**: Leveraging 3Scale with OpenShift to enhance API management in Film and TV	**Intel**: Enhancing Enterprise AI with RAG: Boost your AI's intelligence by seamlessly merging real-time data with LLMs	The business impact of mission critical automation	"Cold start" fast flow – using external suppliers to bootstrap a nimble, flow-centric organization
12:00 – 12:30	**JPMorgan Chase** reaches goals with next-generation automation solutions	How **Kyndryl** leverages Red Hat Ansible for business outcomes	Optimising AI workloads with Red Hat	Event-Driven Automation - Filter the boredom
