

How Open Source unlocks the human potential

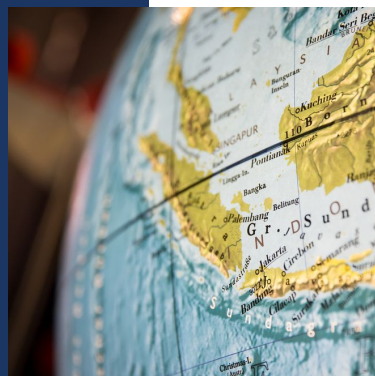

Léonard Bodmer

Revenue Leader Western Europe
Red Hat

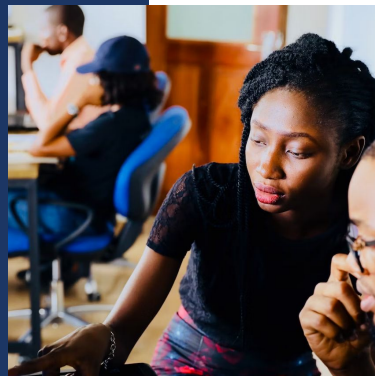

Commitments

1 Innovation

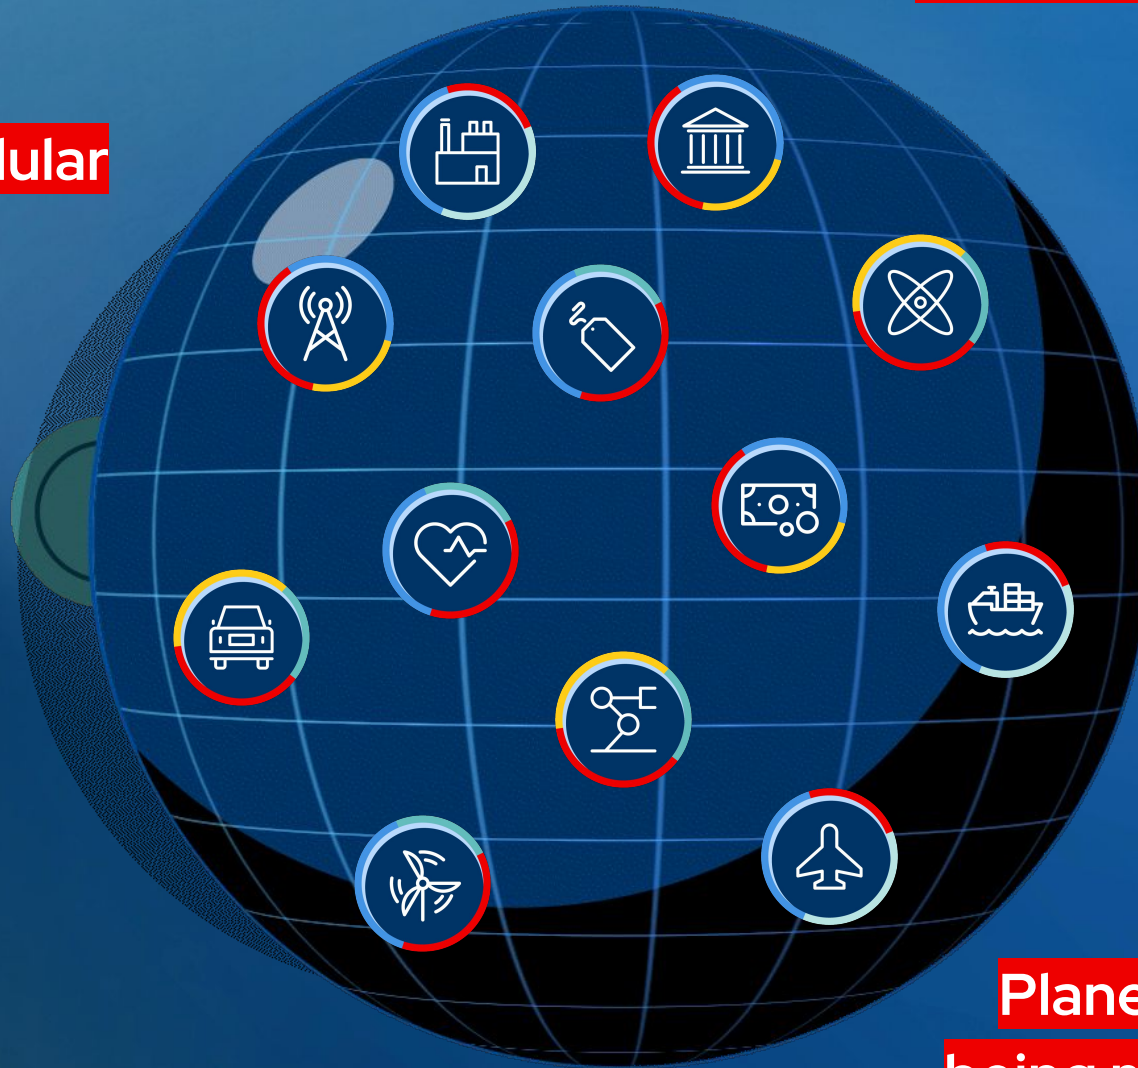

2 Open Source & collaboration

3 Customer & partner success

**Millions of 5G cellular
calls and texts**

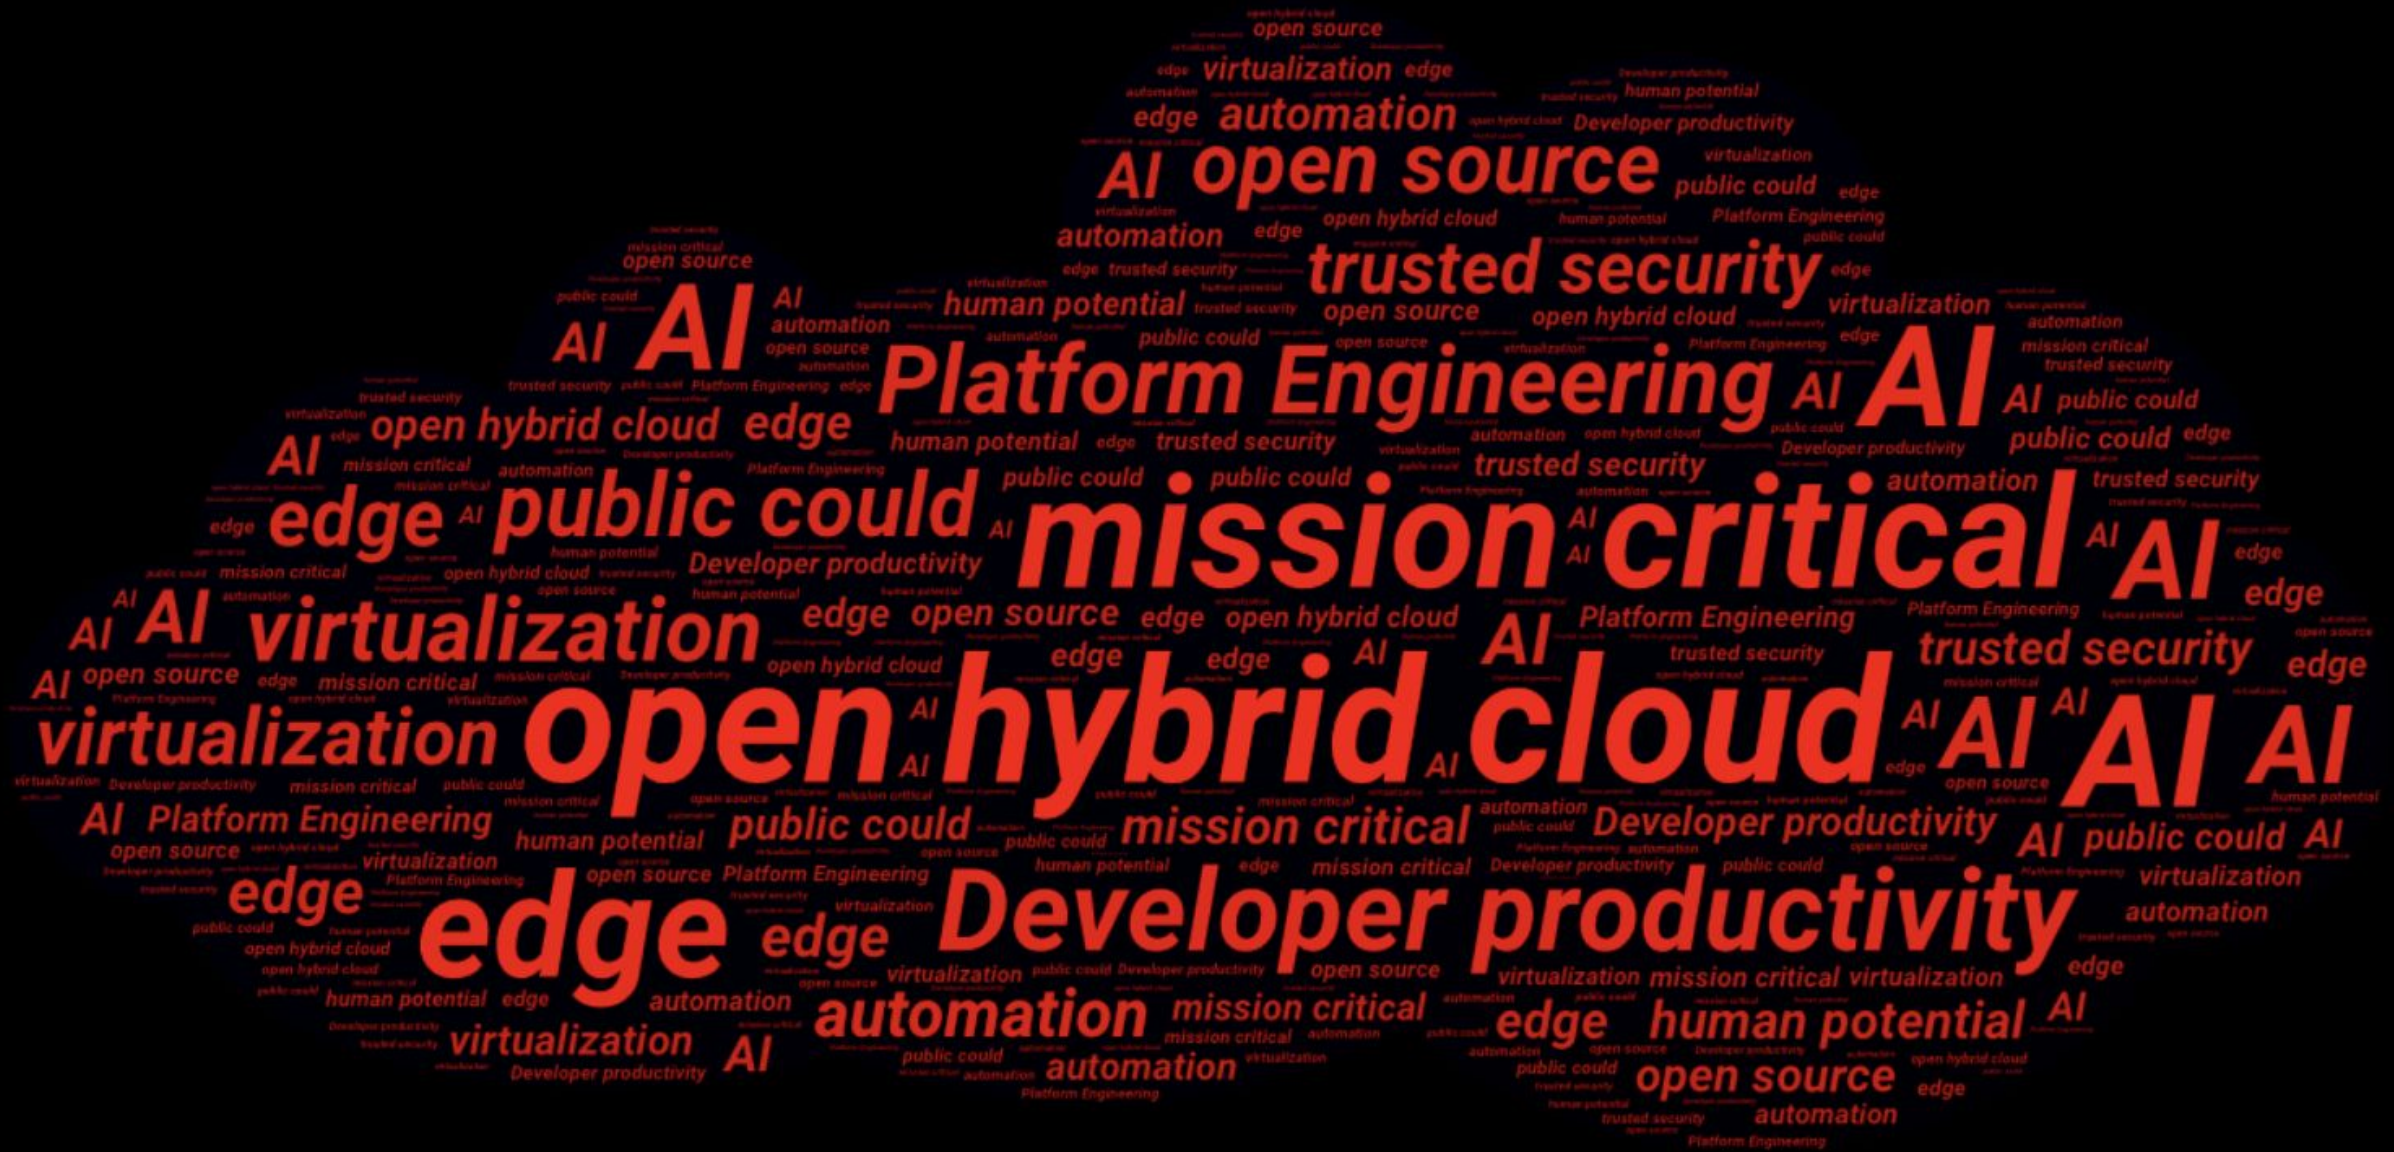

**Governments deliver critical
services to citizens**

**Millions of financial
transactions**

**Advancements in
healthcare**

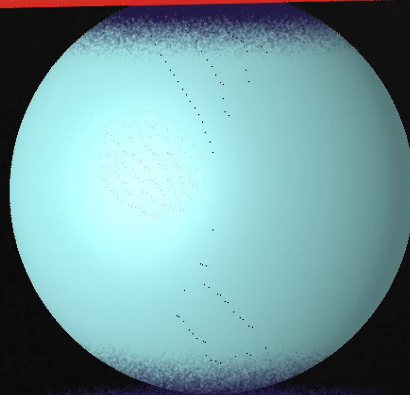

**Planes, trains and automobiles
being more connected and safer**

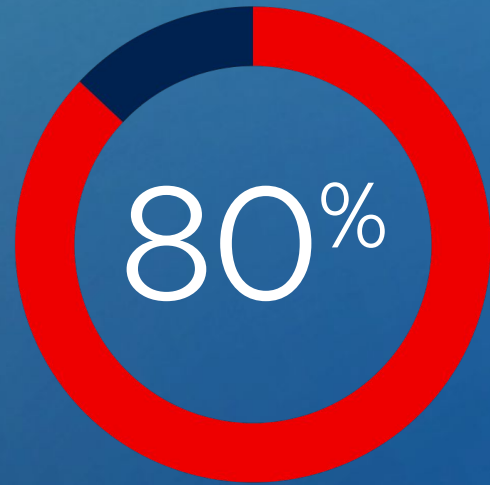

Human

Artificial

By 2029

of human decisions
will not be replaced,

...only augmented by GenAI, as **humans** will
maintain their comparative advantages in
ingenuity, creativity and knowledge.
